Shaping Modern Liberalism Edward A. Stettner, 1993 A well researched and pertinent discussion of one of American liberalism's most important exponents Choice A concise intelligent and highly readable study What is fresh and extremely valuable is the flesh that Stettner puts on the bones of the old generalization about Croly and liberalism This is a worthy addition to the literature on this important and influential American thinker American Historical Review Proceedings of the International Conference for Democracy and National Resilience (ICDNR 2023) Waluyo Waluyo, Dona Budi Kharisma, Hsu Myat Noe Htet, Sunny Ummul Firdaus, 2023-12-05 This is an open access book Center for Democracy Studies and National Resilience Universitas Sebelas Maret warmly welcomes you to The 3rd International Conference for Democracy and National Resilience ICDNR 2023 This conference was held on September 23rd 24th 2023 We encourage participants from all over the world to discuss about Election Integrity A Framework for Guaranteeing The Democracy Rights and Fairness In The Modern Era Notable Keynote and Invited Speakers will share their speeches participants will present their papers and we will provide a platform to support new opportunities and future collaboration Your participation and contribution at ICDNR 2023 will be greatly appreciated The problems in Southeast Asia that dominate them are related to electoral laws electoral procedures district boundaries voter registration party candidate registration media political finance the voting process vote count results and electoral authorities In addition the current development of globalization and modernization certainly influences the implementation of elections in a country As is known the implementation of technology in this election is a breakthrough that has been implemented in various countries Based on research and data collection published by International IDEA trends in the use of technology by the KPU occur in several countries Of the 106 countries using election technology recorded by International IDEA 60% of the KPU is for tabulation use 55% for voter registration 35% for voter registration biometrics fingerprints retinas etc 25% for biometrics in voter verification 20% for e voting With the development of the implementation of elections globally this is certainly an important matter to be discussed and discussed together This background will be discussed by all participants in this international conference **The Idea of Democracy in the Modern Era** Ralph Ketcham, 2004 Although the last half of the twentieth century has been called the Age of Democracy the twenty first has already demonstrated the fragility of its apparent triumph as the dominant form of government throughout the world Reassessing the fate of democracy for our time distinguished political theorist Ralph Ketcham traces the evolution of this idea over the course of four hundred years He traces democracy's bumpy ride in a book that is both an exercise in the history of ideas and an explication of democratic theory Ketcham examines the rationales for democratic government identifies the fault lines that separate democracy from good government and suggests ways to strengthen it in order to meet future challenges Drawing on an encyclopedic command of history and politics he examines the rationales that have been offered for democratic government over the course of four manifestations of modernity that he

identifies in the Western and East Asian world since 1600 Ketcham first considers the fundamental axioms established by theorists of the Enlightenment Bacon Locke Jefferson and reflected in America's founding then moves on to the mostly post-Darwinian critiques by Bentham Veblen Dewey and others that produced theories of the liberal corporate state He explains late nineteenth century Asian responses to democracy as the third manifestation grounded in Confucian respect for communal and hierarchical norms followed by late twentieth century postmodernist thought that views democratic states as oppressive and seeks to empower marginalized groups Ketcham critiques the first second and fourth modernity rationales for democracy and suggests that the Asian approach may represent a reconciliation of ancient wisdom and modern science better suited to today's world He advocates a reorientation of democracy that de-emphasizes group or identity politics and restores the wholeness of the civic community proposing a return to the Jeffersonian universalism that which informed the founding of the United States if democracy is to flourish in a fifth manifestation The Idea of Democracy in the Modern Era is an erudite interdisciplinary work of great breadth and complexity that looks to the past in order to reframe the future With its global overview and comparative insights it will stimulate discussion of how democracy can survive and thrive in the coming era

Pragmatism and Modernities, 2010-01-01 Pragmatism belongs at least to a certain degree to the Protestant based reaction towards the economic social and political developments of the time in the US and it is no coincidence that the pragmatists all came from religious families if not even theologian families But these life conditions have changed over the course of the last century as much as the Protestant self assurance has been questioned more and more The question discussed in this book by international scholars is as to whether the possible modernity of pragmatism of around and after 1900 can still be labeled modern today in the modernity or post modernity around and after 2000 Has philosophy and philosophy of education found better alternatives Have the alternatives of the time around 1900 proven to be better Were the contemporary critics of pragmatism right These questions are discussed in fourteen chapters clustered in three larger parts The first part deals with pragmatism and modernity around 1900 the second part discusses contemporary alternatives to pragmatism and critics of pragmatism and the third and last part of the book deals with the modernity of
