Better Badminton (Reprint Edition) Carl H. Jackson, Lester a. Swan, 2014-02-03 The history of badminton can be traced to India to England where Badminton was the country seat of the Duke of Beaufort Though introduced to New York in 1878 the game gained greater enthusiastic support following World War I as American and Canadian soldiers who learned the game in England continued to play and taught the game to others It can be easily and inexpensively set up and can be played by all ages In this book Jackson and Swan provide details well illustrated on proper grip and strokes serving stance directing the bird in flight rules of the game and court layout and general game strategy This is an excellent introduction to the game and should provide the badminton enthusiast with plenty of insight into bettering their game play This is a reprint of the 1939 edition Better Badminton Carl H. Biostatistics David Baronov,2022-12-30 Without question biostatistical analysis has contributed to a slew of amazing medical breakthroughs Yet it also distorts and deforms the holistic and contingent nature of health and medicine How is it that biostatistics can both sharpen and weaken our understanding of health and medicine What is unique about the content of health and medicine that so plainly reveals such distortions and deformities Exploring these questions entails first a full survey of the tools and techniques of biostatistical analysis aiding medical breakthroughs This survey must then be paired with a probe into the conceptual premises of these tools and techniques and how they refashion and reconstitute the inherently qualitative content of health and medicine in preparation for its quantification We must grasp the statistical machinations at play both technical and conceptual that contrive to fit objects to tools rather than fitting tools to objects This textbook introduces both the procedural methods and the hidden premises of biostatistical analysis *The Caravan* Delhi Press,2017-08-17 The country's first and only publication devoted to narrative journalism The Caravan occupies a singular position among Indian magazines It is a new kind of magazine for a new kind of reader one who demands both style and substance Since its relaunch in January 2010 the magazine has earned a reputation as one of the country's most sophisticated publications a showcase for the region's finest writers and a distinctive blend of rigorous reporting incisive criticism and commentary stunning photo essays and gripping new fiction and poetry Its commitment to great storytelling has earned it the respect of readers from around the world India's best English language magazine The Guardian London For those with an interest in India it has become an absolute must read The New Republic Washington The Caravan fills a niche in the Indian media that has remained vacant for far too long catering to the intellectually curious and aesthetically refined reader who seeks a magazine of exceptional quality **The Rubicon** Edward Frederic Benson,1894 *The Rubicon* E. Industrial Sports Journal ,1950 *Plan Prediction* Ray Wyatt, 2016-11-19 This book develops an innovative system in the form of an app that harnesses the power of the internet to predict which sorts of people will prefer which policy in ANY planning situation It chronicles the accumulated research wisdom behind the system's reasoning along with several less successful approaches to policy making that have been found wanting in the past including the myth usually peddled by strategic planners that it is possible to find a best plan which optimally satisfies everybody The book lays out an entirely new kind of Planning Support System PSS It will facilitate decision making that is far more community sensitive than previously and it will drastically improve the performance of anyone who needs to plan within socially sensitive contexts which is all of us A standout feature of the system is its commitment to scientific rigour as shown by its predicted plan scores always being graphically presented within error margins so that true statistical significance is instantly observable Moreover the probabilities that its predictions are correct are always shown a refreshing change from most if not all other Decision Support Systems DSS that simply expect users to accept their outputs on faith alone *County Gentleman and Land and Water* ,1913 **The Bystander** ,1906
