Between Past Present:

Rome: Continuing Encounters between Past and Present Dorigen Caldwell, 2016-12-05 Few other cities can compare with Rome's history of continuous habitation nor with the survival of so many different epochs in its present. This volume explores how the city's past has shaped the way in which Rome has been built, rebuilt, represented, and imagined throughout its history. Bringing together scholars from the disciplines of architectural history, urban studies, art history, archaeology, and film studies, this book comprises a series of studies on the evolution of the city of Rome and the ways in which it has represented and reconfigured itself from the medieval period to the present day. Moving from material appropriations such as spolia in the medieval period through the cartographic representations of the city in the early modern period to filmic representation in the twentieth century, we encounter very different ways of making sense of the past across Rome's historical spectrum. The broad chronological arrangement of the chapters and the choice of themes and urban locations examined in each allows the reader to draw comparisons between historical periods. An imaginative approach to the study of the urban and architectural make-up of Rome, this volume will be valuable not only for historians of art and architecture but also for students of cultural history and film studies.

The Routledge Companion to Philosophy of Time Nina Emery, 2025-09-30 The Routledge Companion to Philosophy of Time is a comprehensive and authoritative guide to a growing subfield of philosophical research which spans traditional and contemporary debates about the nature of time as well as a diverse set of historical, geographical, and cultural contexts. This book also highlights the interdisciplinary connections between philosophy of time and nearby fields including history, physics, psychology, cognitive development, and more. Comprising 50 chapters by a diverse team of contributors from all over the globe, the Companion is divided into five parts: I History of Philosophy of Time, II Contemporary Metaphysics of Time, III Time and Physics, IV Time and Mind, V Further Connections. The volume is essential reading for students and researchers of philosophy who are interested in exploring the philosophical issues related to time. It is also a valuable resource for philosophers in adjacent subfields including philosophy of mind, philosophy of physics, and history of philosophy, as well as researchers in related fields in the sciences and social sciences.

Introduction to Anticipation Studies Roberto Poli, 2017-08-28 This book presents the theory of anticipation and establishes anticipation of the future as a legitimate topic of research. It examines anticipatory behavior, i.e., a behavior that uses the future in its actual decisional process. The book shows that anticipation violates neither the ontological order of time nor causation. It explores the question of how different kinds of systems anticipate and examines the risks and uses of such anticipatory practices. The book first summarizes the research on anticipation conducted within a range of different disciplines and describes the connection between the anticipatory point of view and futures studies. Following that, its chapters on Wholes, Time, and Emergence make explicit the ontological framework within which anticipation finds its place. It then goes on to discuss Systems Complexity and the Modeling Relation and provides the scientific background supporting

anticipation It restricts formal technicalities to one chapter and presents those technicalities twice in formal and plain words to advance understanding The final chapter shows that all the threads presented in the previous chapters naturally converge toward what has come to be called Discipline of Anticipation

Indigenous Activism in the Midwest Margret McCue-Enser,2025-09-01 In *Indigenous Activism in the Midwest Refusal Resurgence and Resisting Settler Colonialism* Margret McCue Enser examines how Minnesota Indigenous activists use public memory sites to interrupt and challenge the dominant narrative of place She explores how Indigenous activism reveals and disrupts material discursive and performative rhetorics of settler colonialism This work cultivates the ground between rhetorical studies of place and space and Indigenous studies in which place is central to Indigeneity and activism Using largely in situ analysis and drawing on Indigenous and rhetorical scholarship as well as Indigenous and mainstream press the analysis focuses on sites such as an outdoor art installation a historic settlers village centennial and sesquicentennial farms and a celebrated military fort

Time and Space, Second Edition Barry Dainton,2010-01-01 *Surveying both historical debates and modern physics* Barry Dainton evaluates the central arguments in a clear and unintimidating way that keeps conceptual issues comprehensible to students with little scientific or mathematical training and makes the philosophy of space and time accessible to anyone trying to come to grips with the complexities of this challenging subject With over 100 original line illustrations and a full glossary of terms *Time and Space* keeps the requirements of students firmly in sight and will continue to serve as the ideal textbook for philosophy of time and space courses

Key Metaphors for History Javier Fernández-Sebastián,2024-04-03 This book casts a fresh look at what to date has been a relatively unexplored question the enormous value and usefulness of the metaphor in the understanding and writing of history and at the historical culture reflected by these metaphors Mapping a wide range of tropes present in historiography and public discourse the book identifies some of the key metaphorical resources employed by historians politicians and journalists to represent time history memory the past the present and the future and examines a selection of analytical concepts of a temporal nature built upon unmistakably metaphorical foundations such as modernity event process revolution crisis progress decline or transition The analysis of these and other pillars on which modern history has been built whether as a philosophy of history as an academic discipline or as a set of events will interest graduates and scholars dealing with the historical and social sciences and the humanities in general *Key Metaphors for History* offers a broad overview of historiography and historiosophy from an unfrequented point of view halfway between conceptual history theory of history and metaphorology Moreover it constitutes a form of self reflection of the historian on his or her own positionality when researching and writing history

Hidden in Historicism Harry Jansen,2020-06-10 *Hidden in Historicism* considers how the nineteenth century philosophy of historicism depicts three forgotten time regimes a time of rise and fall an ambiguous time of synchronicity of the non synchronous and a time in which decisive moments dominate Before the eighteenth century time was past oriented This inverted in the Enlightenment when the future became

dominating Today this time of progress continues to be embraced as a time of the modern Yet inequality increasing violence and climate change lead to doubts over a bright future In this book Harry Jansen moves away from the heritage of Reinhart Koselleck and his single time of the modern towards a historicist threefold temporal approach to history writing In the time regime of the twenty first century past present and future coexist It is a heterogeneous time that takes on the three forms of historicism Jansen s study shows how all three times exist together in current historiography and contribute to a better understanding of the world today Based on the idea that an incarnated time rules everything that happens it reality the book offers a fresh perspective on the ongoing discussion about time and time regimes in contemporary philosophy and theory of history for students and scholars both time specialists and the non specialist
