Horizon, The: Glory And Dream Of A Civilizational State Weiwei Zhang, 2016-05-10 This is a book of China's own political narrative written by one of China's leading and best known thinkers. It is the last part of the author's China Trilogy which is a best seller in China with over one million copies sold. The book in itself is a centerpiece of the unfolding debate within China on the nature and future of the country and how it compares with the West. It addresses a hugely important issue of the day i.e. in what way China is overtaking or may overtake the United States as the world's preeminent power. The author provides an original and thought provoking study on how China has managed through its own development model to catch up and even surpass to various extents the United States in terms of gross GDP, net household assets and social protection. The book elaborates on how China has engaged itself in reshaping its institutions to ensure its smooth rise drawing on the strengths of its own traditions, socialist legacies and elements from the West. It analyzes the weakness of the Western political institutions and discusses how China has developed its own institutional edge over the West. The author argues that as a civilizational state, China has evolved a logic of its own for development and its own political discourse which questions seriously many Western assumptions about democracy, good governance and universal values. The book recaptures the essence of China's past glory and discusses the horizon of the Chinese dream as well as how China should meet the various challenges ahead. It offers a unique and original perspective on the future of this coming superpower. Like *The China Wave*, this book is both discerning and provocative and serves as a required reading for everyone concerned with the rise of China and its global implications. [The American Political Science Review](#) Westel Woodbury Willoughby, John Archibald Fairlie, Frederic Austin Ogg, 1914 American Political Science Review APSR is the longest running publication of the American Political Science Association APSA. It features research from all fields of political science and contains an extensive book review section of the discipline. *Political Corruption* John Constantinus Bollens, Henry J. Schmandt, 1979 *Institutions, Partisanship and Credibility in Global Financial Markets* Hye Jee Cho, 2017-07-28 Increasingly integrated global financial markets have been shaken by a series of severe shocks in recent decades from Mexico's Tequila crisis to the upheavals in the Eurozone. These crises have demonstrated that signs of uncertain local economic and political conditions can result in market fluctuations which in turn cause economic, social and political instability. Such instability is particularly severe for developing countries that rely heavily on international financial markets for their financial needs. Building credibility in these markets is therefore important for national governments who wish to prevent market panic and capital flight and ultimately to achieve stable economic growth. Earlier studies have argued that institutional arrangements that constrain governments and commit them to protecting private property rights and market friendly policies can send a strong positive signal to the markets about a given country's sovereign credibility. This book argues however that the market perception of such credibility building institutions is significantly contingent on which party governs the country. Formal institutions confer significant credibility building effects on left wing governments whereas less or no significant effects are enjoyed by right wing governments. And

beyond that any significant changes in a country's institutional landscape such as a breakdown of democracy or joining an international organization that can influence domestic politics have particularly strong impact on the credibility of left wing governments This argument is supported by a quantitative analysis of sovereign credit ratings data collected from around 90 developing countries from 1980 to 2007 by case studies from South Asia Eastern Europe and Latin America and by face to face interviews with 24 financial market experts based in Hong Kong Seoul and Paris

The Struggle for Self-government Lincoln Steffens, 1906 Majority Rule Versus Consensus James H. Read, 2009 This text sheds light on the promise and limitations of democracy showing that despite the failure of Calhoun's remedy his diagnosis of the potential injustice of majority rule must be taken seriously Independent Justice Katy Jean Harriger, 1992 Congress created the Office of the Special Prosecutor in 1978 Its mandate was to insure the rule of law to check abuses of power in the executive branch and to restore public confidence in government after the Watergate scandal Harriger politics Wake Forest U focuses on the symbolic constitutional and political dimensions of her subject to provide a comprehensive in depth review of the Office of the Special Prosecutor and how it has operated in practice Annotation copyrighted by Book News Inc Portland OR
