and although his artistic consciousness was formed by European aestheticism his poetry and the writings that emerged from the poets and intellectuals he gathered around him in the George Circle are above all a scathing commentary on the political social and cultural situation in Germany at the turn of the century George who was imbued with the idea of the poet as a prophet and priest saw himself as the Messiah of a New Hellenism and a New Reich led by an intellectual and aesthetic elite consisting of men who were bonded together through their allegiance to a charismatic leader Some of the values that George proclaimed among them a glorification of power of heroism and self sacrifice were seized upon by the National Socialists and subsequently his writings and those of his circle were considered by some to be proto fascist It did not help his reputation that after the Second World War much of the criticism of his works was practiced by uncritical hagiographic George worshippers In recent years however there has been a renewed and unbiased interest among scholars and critics in George and his circle The wide ranging and original essays in this volume explore anew George s poetry and his contribution to Modernism the relation between his vision of a New Reich and fascist ideology and his importance as a cultural critic Jens Rieckmann is Professor of German at the University of California Irvine
