interest in forest trees and tropical fruits Accordingly the second book of chronicles had a title that reminded him that the very common red maple tree *Acer rubrum* could be seen daily from Maine to Florida and everywhere in between in the states he had visited forty nine of fifty during his career A suitable title for the second book thus began to emerge An A to Z theme led to bookend tree species names that were also a part of his reveries It was gratifying to settle on a subtropical fruit tree commonly known as the jujube and with the botanical name *Zyzyphus jujuba* Two jujube trees are growing and thriving right next to his house in Virginia Thus another A to Z listing became the receptacle that included personal anecdotes about a potpourri of things in other countries and in the natural world in general The eventual name of his second book of memoirs emphasized his forestry interests except that the stories that he wanted to share did not dwell solely on trees or on peoples places animals or events Dreams and viewpoints about abstract subjects that he wanted to share were also summoned sorted out and organized into volume 1 Essays Dreams that was published in 2015 And the personal blogs regarding tangible physical sometimes hair raising real time episodes in reality were written into volume 2 Stories Adventures that was published in early 2016 Of the 340 blogs that still reside in computer archives there are perhaps a hundred or so that have not yet been selected for inclusion in another book This book and its title A to Z Word Potpourri Chronicles of a Footloose Forester is the final product The next job is to make another list and decide which stories essays dreams and adventures might become a suitable fifth book of memoirs that does not require chronology background history logical train of thought or other *raison d tre*
