**The Creative Encounter** Howard Thurman, 1972 Howard Thurman writes here about the meaning of the religious experience as it involves the individual totally which means inclusive of feelings and emotions **The Creative Encounter** Rosemary Holsinger, Camille Jordan, Leon Levenson, 1971 *Creative Encounters, Appreciating Difference* Sam Gill, 2018-11-15 Across the world from personal relationships to global politics differences cultural religious racial gender age ability are at the heart of the most disruptive and disturbing concerns While it is laudable to nurture an environment promoting the tolerance of difference Creative Encounters Appreciating Difference argues for the higher goal of actually appreciating difference as essential to creativity and innovation even if often experienced as stressful and complex Even encounters that are apparently harmful and negatively valued arguments conflict war oppression usually heighten the potential for creativity innovation movement action and identity Drawing on classic encounters that have played a significant role in the founding of the academic study of religion and the social sciences this book explores in some depth the dynamics of encounter to reveal both its problematic and creative aspects and to develop perspectives and strategies to assure encounters both include the appreciation of difference and also are recognized as creative and innovative The two examples most extensively considered show that the academic study of the peoples indigenous to North America and to Australia involved creative constructions concoctions of primary examples in order to establish and give authority to academic theories and definitions Rather than damning these examples as bad scholarship this book considers them to be encounters engendering creative constructions that are distinctive to academia yet their potential for harm must be understood Most important to the book is a persistent development of perspectives and strategies for understanding and approaching encounters in order to assure the appreciation of difference is accompanied by the potential for creativity and innovation Specific perspectives and strategies are related to naming moving gesture and play and particularly relevant to religion the development of an aesthetic of impossibles Since these historical examples engage highly relevant present concerns the distinction of real and fake truth and lie map and territory the threading essays show how these more or less classic examples might contribute to appreciating these contemporary concerns that are generated in the presence of difference

**Logos and Life: Creative Experience and the Critique of Reason** Anna-Teresa Tymieniecka, 2012-12-06 It is rare that we feel ourselves to be participating in history Yet as Bertrand Russell observed philosophy develops in response to the challenges of socio cultural problems and situations The present day philosophical endeavor is prompted not by one or two but by a conundrum of problems and controversies in which the forces carrying life are set against each other The struggles in which contemporary mankind is fiercely engaged are not confined as in the past to economic territorial or religious rivalries nor to the quest for power but extend to the primary conditions of human existence They under mine man s primogenital confidence in life and shatter the intimacy of his home on earth Philosophical reflection today cannot fail to feel

the pressure of the current situation within which it unfolds Since this situation now involves the ultimate conditions of human existence its demands have at last given to philosophy the impetus and direction needed for conceiving that the first and last of its concerns should be life itself A Cognitive-Historical Approach to Creativity Subrata Dasgupta,2019-03-20

At the heart of creativity is the practice of bringing something new into existence whether it be a material object or abstract idea thereby making history and enriching the creative tradition A Cognitive Historical Approach to Creativity explores the idea that creativity is both a cognitive phenomenon and a historical process Blending insights and theories of cognitive science with the skills mentality and investigative tools of the historian this book considers diverse issues including the role of the unconscious in creativity the creative process creating history with a new object or idea and the relationship between creators and consumers Drawing on a plethora of real life examples from the eighteenth century through to the present day and from distinct fields including the arts literature science and engineering Subrata Dasgupta emphasizes historicity as a fundamental feature of creativity Providing a unified integrative interdisciplinary treatment of cognitive history and its application to understanding and explaining creativity in its multiple domains A Cognitive Historical Approach to Creativity is essential reading for all researchers of creativity The Renaissance Considered as a Creative Phenomenon Subrata Dasgupta,2021-12-30

By using the fresh investigative language of cognitive history a symbiosis of the methods of cognitive science and historical inquiry this book departs from almost all previous approaches to Renaissance studies The Renaissance has attracted the attention of distinguished scholars from many different vantage points political social economic intellectual and cultural In this volume Subrata Dasgupta sheds an alternative light on the Renaissance by considering it as a creative phenomenon To be creative is to make history by producing material and or abstract artifacts that are both new and consequential to be creative also entails drawing on history and on the culture of the time Most significantly the creative process occurs in individual minds it is a cognitive process of a very special kind Beginning with a prehistory set in classical Greece and medieval Islam this book explores a variety of inventions and discoveries through the 14th 16th centuries mainly in Italy in humanities painting architecture craft technology anatomy natural science and engineering This book will be of interest not only to Renaissance scholars but also to students interested in Renaissance history and the nature of the creative tradition **The Creative Encounter** David Bulwer Lutyens,1960 Book comprises an examination of the poetry of Robinson Jeffers Hart Crane Archibald MacLeish and Robert Lowell **Character Through Creative Experience** William Clayton Bower,1930 **Creative Experience** Mary Parker Follett,1924 **Encounter** ,1972 **Humanitas** ,1965 The Family ,1925 *Creative Advertising* Sandra Ernst Moriarty,1986 **Creative Encounters with Creative People** Janice Gudeman,1984 Contains brief biographies accompanied by lessons and activities to highlight the individual s goal setting abilities and success **Creative Experiences in Oral Language** Mabel Wright Henry,1967 **Teachers College Record** ,1930 *Creative impulse in industry* Helen Marot,1918 **Association Men** ,1930 **The National**
