1995 Tennessee Criminal Justice Handbook Tennessee. Administrative Office of the Courts, 1995

The Handbook of Crime and Punishment Michael Tonry, 2000-11-09 Crime is one of the most significant political issues in contemporary American society Crime control statistics and punishment policies are subjects of constant partisan debate while the media presents sensationalized stories of criminal activity and over crowded prisons In the highly politicized arena of crime and justice empirical data and reasoned

analysis are often overlooked or ignored. The Handbook of Crime and Punishment however provides a comprehensive overview of criminal justice, criminology and crime control policy thus enabling a fundamental understanding of crime and punishment essential to an informed public. Expansive in its coverage, the Handbook presents materials on crime and punishment trends as well as timely policy issues. The latest research on the demography of crime, race, gender, drug use is included and weighty current problems, organized crime, white collar crime, family violence, sex offenders, youth gangs, drug abuse, policy are examined. Processes and institutions that deal with accused and convicted criminals and techniques of punishment are also examined. While some articles emphasize American research findings and developments, others incorporate international research and offer a comparative perspective from other English speaking countries and Western Europe. Editor Michael Tonry, a leading scholar of criminology, introduces the 28 articles in the volume, each contributed by an expert in the field. Designed for a wide audience, the Handbook is encyclopedic in its range and depth of content yet is written in an accessible style. The most inclusive and authoritative work on the topic to be found in one volume, this book will appeal to those interested in the study of crime and its causes, effects, trends and institutions; those interested in the forms and philosophies of punishment; and those interested in crime control.

Criminal Law Handbook of the State of New York, 2008

Edition New York (State), Publisher's Editorial Staff, 2008. Including penal law, criminal procedure law, correction law, N.Y.C. Criminal Court Act, uniform rules for courts exercising criminal jurisdiction, related statutes, offenses and classifications for the penal law, sentencing guides by Barry Kamins Esq. The Routledge Handbook of Criminal Justice Ethics Jonathan Jacobs, Jonathan Jackson, 2016-07-01. The enormous financial cost of criminal justice has motivated increased scrutiny and recognition of the need for constructive change, but what of the ethical costs of current practices and policies? Moreover, if we seriously value the principles of liberal democracy, then there is no question that the ethics of criminal justice are everybody's business concerns for the entire society. The Routledge Handbook of Criminal Justice Ethics brings together international scholars to explore the most significant ethical issues throughout their many areas of expertise, anchoring their discussions in the empirical realities of the issues faced rather than applying moral theory at a distance. Contributions from philosophers, legal scholars, criminologists and psychologists bring a fresh and interdisciplinary approach to the field. The Handbook is divided into three parts. Part I addresses the core issues concerning criminal sanction, the moral and political aspects of the justification of punishment and the relationship between law and morality. Part II examines criminalization and criminal liability and the assumptions and attitudes shaping those aspects of contemporary criminal justice. Part III evaluates current policies and practices of criminal procedure, exploring the roles of police, prosecutors, judges and juries and suggesting directions for revising how criminal justice is achieved. Throughout, scholars seek pathways for change and suggest new solutions to address the central concerns of criminal justice ethics. This book is an ideal resource for upper undergraduate and postgraduate students taking courses in criminal justice ethics, criminology and criminal justice theory and also for
