**Criminal Justice Policy** Stacy L. Mallicoat, Christine L. Gardiner, 2013-10-15 *Criminal Justice Policy* provides a thematic overview of criminal justice policy and its relationship to the American criminal justice system Scholars practitioners and politicians continually debate the value of these policies in their evaluations of the current system As the nature of this subject involves a host of issues including politics public sentiment research and practice the authors expertly highlight these concerns on criminal justice policy and address the implications for the overall system and society at large This text is organized into three parts Foundations of criminal justice policy focuses on the role of politics best practices and street level bureaucracy in criminal justice policy Criminal justice policy in action provides an analysis of fifteen different policy issues in criminal justice such as immigration drugs mental health and capital punishment Each section begins with a basic summary of the policy accompanied by a brief synopsis of the framing issues This brief but informative summary draws students attention to essential concepts and ideas provides a roadmap for what they can expect to learn and ensures continuity throughout the text The text concludes with a discussion about the future directions of criminal justice policy *Criminal Justice Policy and Planning* Wayne N. Welsh, Philip W. Harris, 2016-03-31 Unlike other textbooks on the subject *Criminal Justice Policy and Planning* Planned Change Fifth Edition presents a comprehensive and structured account of the process of administering planned change in the criminal justice system Welsh and Harris detail a simple yet sophisticated seven stage model which offers students and practitioners a full account of program and policy development from beginning to end The authors thoughtfully discuss the steps analyzing a problem setting goals and objectives designing the program or policy

action planning implementing and monitoring evaluating outcomes and reassessing and reviewing Within these steps students focus on performing essential procedures such as conducting a systems analysis specifying an impact model identifying target populations making cost projections collecting monitoring data and performing evaluations In reviewing these steps and procedures students can develop a full appreciation for the challenges inherent in the process and understand the tools that they require to meet those challenges To provide for a greater understanding of the material the text uses a wide array of real life case studies and examples of programs and policies Examples include policies such as Restorative Justice Justice Reinvestment Stop and Frisk and the Brady Act and programs such as drug courts community based violence prevention and halfway houses By examining the successes and failures of various innovations the authors demonstrate both the ability of rational planning to make successful improvements and the tendency of unplanned change to result in undesirable outcomes The result is a powerful argument for the use of logic deliberation and collaboration in criminal justice innovations
