ROBINSON, 2020-09-28 This title makes complex criminal law issues more accessible to students by examining the facts of real life case studies The new edition continues the practice of adding additional cases along with all accompanying material Included in the text are details regarding the offender s background the nature of the offense all relevant facts of the case photographs of the people and locations of the offense and the texts of both then governing and current statutes This approach encourages analysis about what the law is and should be and the aftermath of each case encourages discussion about what actually happened to the defendant and why **Criminal Law** Paul H. Robinson, 1997 In his student treatise noted authority Paul Robinson uses the Model Penal Code realistic hypotheticals and lucid explanations to describe the existing rules of American criminal law In fact professors consistently remark on how well written and clear Robinson s text is He explains the reasoning behind those rules The interrelation among them and their application Robinson gives the MPC s position on each topic along with the most common deviations from it Rather than viewing each rule in isolation he examines each part of criminal law as a piece of a machine for determining criminal liability The six parts of the book define those interrelationships Introduction General Principles in the Definition of Offenses Principles of Imputation General Defenses Inchoate Liability Specific Offenses Since lawyers who know the reasoning of the drafters have a powerful advantage in arguing for a particular interpretation of a code provision Robinson points students to important bibliographic sources at the end of each section Each chapter starts with a hypothetical based on a real case Throughout the chapter Robinson refers back to the hypothetical using it as a vehicle to analyze and clarify abstract concepts Numerous footnotes case references and bibliographies make this text a lasting research tool For a meaningful exploration of this fascinating area of study you can depend on Paul Robinson s Criminal Law Be sure to recommend this vital work to your next criminal law class **Criminal Law** Paul H.
