Max Müller,2025-07-19 Reprint of the original first published in 1884 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage      *The Upanishads (Complete)* Anonymous, The ancient Vedic literature the foundation of the whole literature of India which has been handed down in that country in an unbroken succession from the earliest times within the recollection of man to the present day became known for the first time beyond the frontiers of India through the Upanishads The Upanishads were translated from Sanskrit into Persian by or it may be for D r Shukoh the eldest son of Sh h Jeh n an enlightened prince who openly professed the liberal religious tenets of the great Emperor Akbar and even wrote a book intended to reconcile the religious doctrines of Hindus and Mohammedans He seems first to have heard of the Upanishads during his stay in Kashmir in 1640 He afterwards invited several Pandits from Benares to Delhi who were to assist him in the work of translation The translation was finished in 1657 Three years after the accomplishment of this work in 1659 the prince was put to death by his brother Aurangzib1 in reality no doubt because he was the eldest son and legitimate successor of Sh h Jeh n but under the pretext that he was an infidel and dangerous to the

established religion of the empire When the Upanishads had once been translated from Sanskrit into Persian at that time the most widely read language of the East and understood likewise by many European scholars they became generally accessible to all who took an interest in the religious literature of India It is true that under Akbar's reign 1556-1586 similar translations had been prepared<sup>1</sup> but neither those nor the translations of Dr Shukoh attracted the attention of European scholars till the year 1775 In that year Anquetil Duperron the famous traveller and discoverer of the Zend avesta received one MS of the Persian translation of the Upanishads sent to him by M Gentil the French resident at the court of Shuja ud daula and brought to France by M Bernier After receiving another MS Anquetil Duperron collated the two and translated the Persian translation<sup>2</sup> into French not published and into Latin That Latin translation was published in 1801 and 1802 under the title of *Oupnekhat id est Secretum tegendum opus ipsa in India rarissimum continens antiquam et arcanam seu theologicam et philosophicam doctrinam e quatuor sacris Indorum libris Rak baid Djedjer baid Sam baid Athrban baid excerptam ad verbum e Persico idiomate Samkreticis vocabulis intermixto in Latinum conversum Dissertationibus et Annotationibus difficiliora explanantibus illustratum studio et opera Anquetil Duperron Indicopleust Argentorati typis et impensis fratrum Levrault vol i 1801 vol ii 1802* This translation though it attracted considerable interest among scholars was written in so utterly unintelligible a style that it required the lynxlike perspicacity of an intrepid philosopher such as Schopenhauer to discover a thread through such a labyrinth Schopenhauer however not only found and followed such a thread but he had the courage to proclaim to an incredulous age the vast treasures of thought which were lying buried beneath that fearful jargon As Anquetil Duperron's volumes have become scarce I shall here give a short specimen of his translation which corresponds to the first sentences of my translation of the Khndogya upanishad p 1 Oum hoc verbum esse adkit ut sciveris sic maschghouli fac de co meditare quod ipsum hoc verbum aodkit est propter illud quod hoc verbum oum in Sam Beid cum voce alt cum harmoni pronunciatum fiat Adkiteh porro cremor optimum selectissimum est quemadmodum ex pr omni quieto non moto et moto pulvis terra cremor optimum est et e pr terra aqua cremor est et ex aqua comedendum victus cremor est et e comedendo comedens cremor est et e comedente loquela id quod dicitur cremor est et e loquela a et Beid et ex a et siam id est cum harmonia pronunciatum et e Sam adkit cremor est id est oum voce alta cum harmonia pronunciare aokit cremor cremorum optimum optimorum est Major ex pr adkit cremor alter non est Schopenhauer not only read this translation carefully but he makes no secret of it that his own philosophy is powerfully impregnated by the fundamental doctrines of the Upanishads He dwells on it again and again and it seems both fair to Schopenhauer's memory and highly important for a true appreciation of the philosophical value of the Upanishads to put together what that vigorous thinker has written on those ancient rhapsodies of truth In his *Welt als Wille und Vorstellung* he writes in the preface to the first edition p xiii If the reader has also received the benefit of the Vedas the access to which by means of the Upanishads is in my eyes the greatest privilege which this still young century 1818 may claim before all previous centuries for I anticipate that the influence of Sanskrit literature will not

be less profound than the revival of Greek in the fourteenth century if then the reader I say has received his initiation in primeval Indian wisdom and received it with an open heart he will be prepared in the very best way for hearing what I have to tell him It will not sound to him strange as to many others much less disagreeable for I might if it did not sound conceited contend that every one of the detached statements which constitute the Upanishads may be deduced as a necessary result from the fundamental thoughts which I have to enunciate though those deductions themselves are by no means to be found there If I consider how difficult it is even with the assistance of the best and carefully educated teachers and with all the excellent philological appliances collected in the course of this century to arrive at a really correct accurate and living understanding of Greek and Roman authors whose language was after all the language of our own predecessors in Europe and the mother of our own while Sanskrit on the contrary was spoken thousands of years ago in distant India and can be learnt only with appliances which are as yet very imperfect if I add to this the impression which the translations of Sanskrit works by European scholars with very few exceptions produce on my mind I cannot resist a certain suspicion that our Sanskrit scholars do not understand their texts much better than the higher class of schoolboys their Greek Of course as they are not boys but men of knowledge and understanding they put together out of what they do understand something like what the general meaning may have been but much probably creeps in ex ingenio It is still worse with the Chinese of our European Sinologues If then I consider on the other hand that Sultan Mohammed D r Shukoh the brother of Aurangzib was born and bred in India was a learned thoughtful and enquiring man and therefore probably understood his Sanskrit about as well as we our Latin that moreover he was assisted by a number of the most learned Pandits all this together gives me at once a very high opinion of his translation of the Vedic Upanishads into Persian If besides this I see with what profound and quite appropriate reverence Anquetil Duperron has treated that Persian translation rendering it in Latin word by word retaining in spite of Latin grammar the Persian syntax and all the Sanskrit words which the Sultan himself had left untranslated though explaining them in a glossary I feel the most perfect confidence in reading that translation and that confidence soon receives its most perfect justification For how entirely does the Oupnekhat breathe throughout the holy spirit of the Vedas How is every one who by a diligent study of its Persian Latin has become familiar with that incomparable book stirred by that spirit to the very depth of his soul How does every line display its firm definite and throughout harmonious meaning From every sentence deep original and sublime thoughts arise and the whole is pervaded by a high and holy and earnest spirit Indian air surrounds us and original thoughts of kindred spirits And oh how thoroughly is the mind here washed clean of all early engrafted Jewish superstitions and of all philosophy that cringes before those superstitions In the whole world there is no study except that of the originals so beneficial and so elevating as that of the Oupnekhat It has been the solace of my life it will be the solace of my death Though I feel the highest regard for the religious and philosophical works of Sanskrit literature I have not been able to derive much pleasure from their poetical compositions Nay

they seem to me sometimes as tasteless and monstrous as the sculpture of India In2 most of the pagan philosophical writers of the first Christian centuries we see the Jewish theism which as Christianity was soon to become the faith of the people shining through much as at present we may perceive shining through in the writings of the learned the native pantheism of India which is destined sooner or later to become the faith of the people Ex oriente lux This may seem strong language and in some respects too strong But I thought it right to quote it here because whatever may be urged against Schopenhauer he was a thoroughly honest thinker and honest speaker and no one would suspect him of any predilection for what has been so readily called Indian mysticism That Schelling and his school should use rapturous language about the Upanishads might carry little weight with that large class of philosophers by whom everything beyond the clouds of their own horizon is labelled mysticism But that Schopenhauer should have spoken of the Upanishads as products of the highest wisdom Ausgeburt der höchsten Weisheit 1 that he should have placed the pantheism there taught high above the pantheism of Bruno Malebranche Spinoza and Scotus Erigena as brought to light again at Oxford in 16812 may perhaps secure a more considerate reception for these relics of ancient wisdom than anything that I could say in their favour **The Hibbert**
