Hansen,2023-07-03 Synthesizing the best current thinking about learning course design and promoting student achievement this is a guide to developing college instruction that has clear purpose is well integrated into the curriculum and improves student learning in predictable and measurable ways The process involves developing a transparent course blueprint focused on a limited number of key concepts and ideas related tasks and corresponding performance criteria as well as on frequent practice opportunities and early identification of potential learning barriers Idea based Learning takes as its point of departure the big conceptual ideas of a discipline that give structure and unity to a course and even to the curriculum as opposed to a focus on content that can lead to teaching

sequences of loosely related topics and aligns with notions of student centered and outcomes based learning environments Adopting a backwards design model it begins with three parallel processes first identifying the material that is crucial for conceptual understanding second articulating a clear rationale for how to choose learning outcomes based on student needs and intellectual readiness and finally aligning the learning outcomes with the instructional requirements of the authentic performance tasks The resulting syllabi ensure cohesion between sections of the same course as well as between courses within a whole curriculum assuring the progressive development of students skills and knowledge Key elements of IBL include Helping students see the big picture Building courses around one or more authentic performance tasks that illuminate the core concepts of the discipline Clearly identifying performance criteria for all tasks Incorporating practice in the competencies that are deemed important for students success By placing the onus of learning on the student liberating faculty to take on the role of learning coaches Designing tasks that help students unlearn simplistic ideas and replace them with improved understandings Edmund Hansen expertly guides the reader through the steps of the process providing examples along the way and concluding with a sample course design document and syllabus that illustrate the principles he propounds Applied Languages: Theory and Practice in ESP Jordi Piqué Angordans, David J. Viera, 1997 Today more and more linguists and language specialists the world over are acknowledging the vital role of ESP within the English language teaching and learning area Consequently teachers and learners alike are discovering that there is a wider scope available to them in the field Hopefully the joint effort that went into the publishing of this volume will serve to motivate others to continue working in this direction Course Design for TESOL Florin Mihai, Kerry Purmensity, 2016-03-22 Course Design for TESOL offers a unique approach of integrating curriculum with teaching activities to allow language educators to utilize the text in a variety of courses in a TESOL program Although the authors assume readers have a basic knowledge of English grammar this textbook resource is designed to be comprehensible to those who have not had an SLA or Applied Linguistics course Because each language skill is discussed in detail in terms of important theories and concepts and actual teaching activities are included the book can also be used in a Methods course or a combined Curriculum Design Methods or Methods and Materials course Part I explores the basic language acquisition theories and their influences on current teaching practices in the field Part II then moves on to the core elements of designing a curriculum or course conducting the needs analysis setting of course goals objectives designing the syllabus and writing lesson plans Part III Instructional Activities and Assessment Techniques features chapters on the teaching of listening speaking reading writing grammar and culture Within each of these chapters the authors address the fundamental issues related to the teaching of each skill and then discuss the components of a good activity for that skill and how to design one and then offer four sample activities one for each type of syllabus and guidance on assessing that skill The activities can be adapted for use in a variety of classrooms and settings Part IV addresses contemporary trends curriculum issues in North America and Europe standards and educational policy
