## **Development Projects Observed:**

Development Projects Observed Albert O. Hirschman, 1967 In this recent volume Professor Albert O Hirschman turns his attention to the ways in which economic development decision making is molded activated or hampered by the specific nature of the project that is undertaken for example the establishment and operation of a pulp and paper mill in east Pakistan an irrigation project in Peru railway expansion in Nigeria and other development undertakings The bulk of the study explores new territory

**Development Projects Observed** Albert O. Hirschman, 2014 Originally published in 1967 the modest and plainly descriptive title of *Development Projects Observed* is deceptive Today it is recognized as the ultimate volume of Hirschman's groundbreaking trilogy on development and as the bridge to the broader social science themes of his subsequent writings Though among his lesser known works this unassuming tome is one of his most influential It is in this book that Hirschman first shared his now famous Principle of the Hiding Hand In an April 2013 *New Yorker* issue Malcolm Gladwell wrote an appreciation of the principle described by Cass Sunstein in the book's new foreword as a bit of a trick up history's sleeve It can be summed up as a phenomenon in which people's inability to foresee obstacles leads to actions that succeed because people have far more problem solving ability than they anticipate or appreciate And it is in *Development Projects Observed* that Hirschman laid the foundation for the core of his most important work *Exit Voice and Loyalty* and later led to the concept of an exit strategy

**Development Projects Observed** Albert O. Hirschman, 2011-04-01 The experience accumulated in the wake of more than two decades of sustained effort to promote growth and change in the low income countries presents a rich field for scholarly inquiry and new insights into the development process The success and failures of such projects the new skills and attitudes they impart and the internal tensions they sometimes generate obviously have an important bearing on the next stages of a country's development effort Yet little has become known about these truly formative experiences which are due to the behavior and misbehavior of development projects In this recent volume Professor Albert O Hirschman turns his attention to the ways in which decision making is molded activated or hampered by the specific nature of the project that is undertaken for example the establishment and operation of a pulp and paper mill in east Pakistan an irrigation project in Peru railway expansion in Nigeria and other development undertakings In some parts of the present inquiry Hirschman elaborates on his earlier writings in this series and occasionally he qualifies or modifies his previous conclusions the bulk of the study explores new territory

**Development Projects Observed** Albert O. Hirschman, 1970 [The Oxford Handbook of Megaproject Management](#) Bent Flyvbjerg, 2017 This Handbook provides state of the art scholarship in the emerging field of megaproject management The 25 chapters cover all aspects of megaproject management from front end planning to project delivery including how to deal with stakeholders risk finance complexity innovation governance ethics project breakdowns and scale itself

**The Emergence of Routines** Daniel M. G. Raff, Philip Scranton, 2017 This book

explains how things get organized and how routines emerge in businesses and business life The chapters explore historical episodes in a wide variety of settings and encourage a view of firm operations and development that is much more realistic and much more practically helpful than the standard economic perspective     **Albert O. Hirschman** Michele Alacevich,2021-04-06 Winner 2023 Best Book Award Italian Association for the History of Economic Thought One of the most original social scientists of the twentieth century Albert O Hirschman led an uncommonly dramatic life After fleeing Nazi Germany as a youth he fought in the Spanish Civil War took part in antifascist activities in Italy and organized an underground rescue operation in Marseille through which more than 2 000 people including Marc Chagall Arthur Koestler and Hannah Arendt escaped Europe Hirschman moved across topics methodologies and disciplinary boundaries as fluidly as he did among countries and languages His work is marked by a deep suspicion of all encompassing theories valuing instead doubt and a sensitivity to contingencies and unexpected consequences In this intellectual biography the economic historian Michele Alacevich explores the development and trajectory of Hirschman s characteristic approach to social scientific questions He traces the many strands of Hirschman s thought and their place in his multifaceted body of work considering their limitations as well as their strengths Alacevich puts Hirschman s ideas into context following his participation in the major intellectual and political debates of his times He examines Hirschman s pioneering work in development studies and his analyses of social change the history of capitalism and the workings of democracy alongside his activities in the postwar reconstruction of Europe and economic development in Latin America A compelling intellectual portrait of a profoundly distinctive thinker this book also reflects on Hirschman s legacy and lasting influence     *Transformational Frontiers* Jaisankar Sarma,2025-12-18 *Transformational Frontiers* lifts the veil on one of the most overlooked realities in Christian development the indispensable role of fieldworkers These men and women are not simply implementers of strategy they are bearers of Christ s presence cultivators of trust and companions in the work of restoration Yet in many organizations their agency is undermined by systems that prioritize metrics models and managerial efficiency over relationships and presence This book challenges that trend It re centers fieldworkers in the story of transformational development calling for a renewed vision that honors their calling affirms their agency and restores the witness of Christ to its rightful place Drawing from years of experience and stories from the field *Transformational Frontiers* invites leaders practitioners and donors alike to see development not as a project to manage but as a holy collaboration where God s Spirit moves through those on the frontlines of love justice and mercy     **A Propensity to Self-subversion** Albert O. Hirschman,1995 In the substantial essays that open this collection Hirschman reappraises points he made in such books as *Exit Voice and Loyalty* *The Strategy of Economic Development* and *The Rhetoric of Reaction* Subsequent essays fruitfully reexplore the themes of Latin American development and market society that have occupied him throughout his career Hirschman also forays into new puzzles such as the likely impact negative or otherwise of the Eastern European revolutions of 1989 on the Third World the on and off connections

between political and economic progress and the role of conflict in enhancing community spirit in a liberal democracy  
*Management of Rural Development Projects* Gabriel U. Iglesias, Romeo B. Ocampo, 1984    Implementation Gabriel U. Iglesias, 1976    Project Appraisal ,1994    *New Product Development* S.(red.)
