

The Developmental Course of Marital Dysfunction

How do marriages become unhappy? How do marriages change? What theories and methods can best illuminate our understanding of marital development? As the first comprehensive volume to explore how marriages develop and deteriorate, *The Developmental Course of Marital Dysfunction* brings together leading scholars to present recent research on the longitudinal course of marriage. The chapters share a common focus on the early phases of marriage but address a diverse array of topics, including marital conflict, personality, social support, the transition to parenthood, violence, ethnicity, stress, alcohol use, commitment, and sexuality. Implications of this research for alleviating marital distress are also noted. The book concludes with six provocative analyses by prominent scholars in the areas of sociology, clinical psychology, social psychology, and developmental psychology.

By combining current theories, methods, and data, *The Developmental Course of Marital Dysfunction* serves as a valuable introduction to the longitudinal study of marriage.

Dr. Thomas Bradbury is Associate Professor of Psychology at the University of California, Los Angeles. He has earned numerous honors for his research, including the David Shakow Early Career Award from the Clinical Psychology Division of the American Psychological Association, the Reuben Hill Award from the National Council on Family Relations, and the Distinguished Scientific Award for Early Career Contribution to Psychology from the American Psychological Association.
