Devils Vicar:

The Devil's Revenge Jack Darmend, 2012-02-10 As long as mankind has existed he has been plagued by two questions Where did I come from and Where am I going Anthropologists geologists astronomers and archaeologists have been searching for an answer to the first question and have produced a lot of evidence to show where mankind came from and how long mankind has existed on planet Earth Theology students have applied their own thinking on both these questions and claim to know the answers This book takes an individual view and reaches a definite and alarming conclusion The author lived with his family through the Second World War and after the end of the war went to an agricultural college and then spent many years as a farm worker where he came to the conclusion that life was not as we have been led to believe by the establishment In the agricultural college he studied the work of Gregor Mendel and the subject of genetics in all living things animal and plants of all kinds and reached the conclusion that the creator of all life on earth is the sun which is responsible through its various light forms infrared ultraviolet and other forms of lights that are not visible to mankind but can be seen by some species of animal that humans look down on and think of as low life

Russell,1874 Rey De-Heavens The Blueprint Ramón H. Guiardinú,2026-03-24 In a universe where divine infernal and mortal realms overlap and break again and again Rey De Heavens is the thread that does not snap He begins as a monster marked by blood that is not entirely vampiric or werewolf dragged from the start into territories where magic faith and cruelty are as solid as gravity The book follows him through very different phases of his life from violent academies in dystopian futures where technology monitors even the last thought through cities consumed by hell made flesh distant planets fortresses hanging over dying worlds and wars between gods trying to reset the balance of creation with repeated cataclysms In each of these stages Rey faces something that is always the same thing with a different mask the temptation to use his power as a final weapon even if the price is his capacity to feel empathy Rey De Heavens is not just a saga of battles between angels demons and gods It is the record of a being who as he climbs each rung of power sheds layers of emotions and is forced to ask whether his existence is a gift or a curse Among ruined galaxies cities devoured by resentment and mystical books that rewrite reality the real war is not only for control of the cosmos but for something smaller and harder the possibility of remaining someone and not just a force when everything around him pushes him to become something else
