

# Dialectical Materialism

- Fundamental reality is purely physical
- All behavior is law-governed
- Social structures are determined by the mode of economic production
- Each mode of production leads to “contradictions”—problems inherent to the system that can’t be solved within the system—thus economic development is dialectical
- History is the history of class conflict
- Utopian element: economic development is inevitable, and terminates in communism

Absolute Recoil Slavoj Zizek,2014-10-01 At the outset of the twentieth century Lenin argued that materialism has to change its form with each new scientific discovery Today argues Slavoj Zizek in this major new work we should apply this stricture to Lenin himself Philosophical materialism has not yet risen to the challenge of relativity theory and quantum physics or breakthroughs like Freudian psychoanalysis and we need hardly mention the failure of actually existing Communism In Absolute Recoil Zizek proposes a new foundation for dialectical materialism that answers these fundamental challenges      **Dialectical Materialism and Historical Dialectics of Karl Marx** Mbogo Wa Wambui,2020-06-17 Research
