Home(place): Jasmine Pham, Whitneé L. Garrett-Walker, Qui Alexander, Jennifer Brant, 2025-08-11 This volume is a collective offering that extends bell hooks' vision of homeplace as a site of resistance, refuge, and liberatory worldmaking. This volume emerges from a deep commitment to anti-colonial, anti-racist, and matriarchal practices rooted in care, ethical relationality, and community. As we troubled the waters of theorizing home amidst grief, occupation, displacement, and longing, we honored what it means to write in times of uncertainty when home is not always safe and when it must be carried, remembered, or reimagined. This collection centres the voices of Black and Indigenous women, 2Spirit, trans, queer, non-binary, and gender-expansive peoples, offering pathways for rethinking kinship, safety, and belonging. Conceived as an intellectual and spiritual gathering, the volume holds space for mourning and hope, interruption and renewal. We invite readers to reflect, imagine, and find comfort in the care extended within these pages.

African American Family Life Vonnie C. McLoyd, Nancy E. Hill, Kenneth A. Dodge, 2005-09-26 This volume brings together leading experts from different disciplines to offer new perspectives on contemporary African American families. A wealth of knowledge is presented on the heterogeneity of Black family life today, the challenges and opportunities facing parents, children, and communities, and the impact on health and development of key cultural and social processes. Comprehensive and authoritative, the book critically evaluates current policies and service delivery models and sets forth cogent recommendations for supporting families' strengths. Following an overview that traces the ongoing evolution of theory and research in the field, the book examines how African American families fare on numerous indicators of well-being. Throughout, contributors identify factors that promote or hinder healthy child and family development, writing from a culturally sensitive, non-pathologizing stance. The concluding chapter provides an up-to-date framework for culturally competent mental health practice.

Sourcebook of Family Theory and Research Vern L. Bengtson, 2005 Now available in paperback for classroom use. This comprehensive text provides a rich source of perspectives on theorising about the family for scholars, researchers, and students. Another of the book's strengths is the emphasis on multimethod approaches in family research. The book covers an impressive range of topics and issues: marital happiness, adjustment of children in divorce, marriages, gay marriage, sibling ties, ethnic families of colour, stepfamilies, aggression, culture, work, and family, religion, and social policy, to name a few. In summary, this superb volume is highly recommended and amply reflects the many contemporary perspectives on the family.

Philip Siebler, Monash University, Victoria. Sponsored by the National Council on Family Relations, the *Sourcebook of Family Theory and Research* is the reference work on theory and methods for family scholars and students around the world. This volume provides a diverse, eclectic, and paradoxically mature approach to theorizing and demonstrates how the development of theory is crucial to the future of family research. The *Sourcebook* reflects an interactive approach that focuses on the process of theory building and

designing research thereby engaging readers in doing theory rather than simply reading about it An accompanying website offers additional participation and interaction in the process of doing theory and making science Editors Vern L Bengtson Alan C Acock Katherine R Allen Peggye Dilworth Anderson and David M Klein have brought together a prominent group of diverse contributors ranging in race and ethnicity age and seniority and gender and sexual orientation The Sourcebook begins with a section that sets the context for future family research The subsequent sections explore changing family patterns changing family interactions within and across generations and families and larger social forces A concluding section discusses issues of teaching family theories and research Key Features Focuses on the process rather than the outcomes of family theory and research methods Emphasizes the value of multi methods approaches in family research by integrating theory development with the development of research methods Differs from many other publications on family research by describing the development of new ideas rather than just summarizing existing findings The interactive Web site and the special feature boxes within the chapters engage readers with theory and methodology Boxed features include Case Studies Spotlights on Theory Spotlights on Methods and a Discussion and Extension sections Represents a Who s Who of family researchers with contributions from many of the best researchers in the family realm The Sourcebook will be an excellent addition to any academic library It is an authoritative reference for scholars and researchers in Human Development and Family Studies Sociology Social Work and Psychology In addition the Sourcebook can also be used in graduate courses on family theory and methodology
