

Performance Task 3: GESTURES SPEAK
Oral Communication in Context
Second Quarter

Directions:

1. Memorize the following excerpt from one of the motivational speeches given by Bryan Dyson, the former CEO of Coca Cola, as a commencement address at Georgia Tech in 1996.
2. Take a video of yourself delivering the excerpt. Make sure to have **proper gestures and facial expressions**.

"Imagine life as a game in which you are juggling some five balls in the air. You name them—work, family, health, friends and spirit...and you're keeping all of these in the air.

You will soon understand that work is a rubber ball. If you drop it, it will bounce back. But the other four balls—family, health, friends and spirit—are made of glass. If you drop one of these, they will be irrevocably scuffed, marked, nicked, damaged or even shattered. They will never be the same. You must understand that and strive for balance in your life.

3. Send your recorded video to your subject teacher's Facebook Account (Darell Ann T. Bantolina). Deadline of submission will be on Friday, November 8.
4. Be guided by the rubric for assessment.

Scoring Criteria

| Criteria | Excellent (5 points) | Satisfactor y (3 points) | Needs Improvement (1 point) |

Local Area Network Interconnection Raif O. Onvural, Arne Nilsson, 2012-12-06 There are many exciting trends and developments in the communications industry several of which are related to advances in fast packet switching multi media services asynchronous transfer mode ATM and high speed protocols It seems fair to say that the face of networking has been rapidly changing and the distinction between LANs MANs and WANs is becoming more and more blurred It is commonly believed in the industry that ATM represents the next generation in networking The adoption of ATM standards by the research and development community as a unifying technology for communications that scales from local to wide area has been met with great enthusiasm from the business community and end users Reflecting these trends the technical program of the First International Conference on LAN Interconnection consists of papers addressing a wide range of technical challenges and state of the art reviews We are fortunate to have assembled a strong program committee expert speakers and panelists We would like to thank Professor Schwartz for his keynote speech We would like to thank Professor Yannis Viniotis and his students for the preparation of the index We gratefully acknowledge the generous financial support of Dr Jon Fjeld Mr Rick McGee and Mr David Witt all of IBM Research Triangle Park We also would like to thank Ms Mary Safford our editor and Mr John Matzka both at Plenum Press for the publication of the proceedings
