**The Oxford Companion to Christian Thought** Adrian Hastings, Alistair Mason, Hugh S. Pyper, 2000-12-21 Embracing the viewpoints of Catholic Protestant or Orthodox thinkers of conservatives liberals radicals and agnostics Christianity today is anything but monolithic or univocal In The Oxford Companion to Christian Thought general editor Adrian Hastings has tried to capture a sense of the great diversity of opinion that swirls about under the heading of Christian thought Indeed the 260 contributors who hail from twenty countries represent as wide a range of perspectives as possible Here is a comprehensive and authoritative though not dogmatic overview of the full spectrum of Christian thinking Within its 600 alphabetically arranged entries readers will find lengthy survey articles on the history of Christian thought on national and regional traditions and on various denominations from Anglican to Unitarian There is ample coverage of Eastern thought as well examining the Christian tradition in China Japan India and Africa The contributors examine major theological topics such as resurrection the Eucharist and grace as well as controversial issues such as homosexuality and abortion In addition short entries illuminate symbols such as water and wine and there are many profiles of leading theologians of non Christians who have deeply influenced Christian thinking including Aristotle and Plato and of literary figures such as Dante Milton and Tolstoy Most articles end with a list of suggested readings and the book features a large number of cross references The Oxford Companion to Christian Thought is an indispensable guide to one of the central strands of Western culture An essential volume for all Christians it is a thoughtful gift for the holidays

**The Inquisition and the Christian East, 1350-1850** Cesare Santus, Laurent Tatarenko, 2025-05-27 A groundbreaking volume that radically refocuses our study of early modern Catholicism within a wider geographical and cultural context The intricate relationship between the Roman Church and the Christian East has long been underestimated in shaping early modern Catholicism Similarly scholarship on the Inquisition has largely overlooked how it interacted with members of the Eastern branch of Christianity Yet these groups frequently faced the scrutiny of the judges of the faith who were in turn exposed to alternative disciplinary and doctrinal models that questioned Catholic certainties This volume delves into the debates surrounding the compatibility of Eastern norms and traditions with the principles of the Counter Reformation focusing on Greek Arab and Slavic communities as well as Armenians Ethiopians and Syriac Christians from the Ottoman Empire and

India among others The essays examine topics such as the confessional surveillance of Eastern Christians in Catholic territories and the responses of Roman theologians to thorny questions posed by missionaries around the globe Through a meticulous study of rich untapped archival resources in a wide array of languages this collection reveals how the interaction with Eastern Christianity exposed some of the contradictions and unresolved problems of Tridentine Catholicism while providing the Inquisition with a set of cultural tools and interpretive lenses that would eventually be applied in the missionary and theological controversies that shook the Catholic world from the seventeenth century onwards **Christian Weekly** ,1906 The Longman Companion to the Middle East Since 1914 Ritchie Owendale,1998 An invaluable work of reference which provides an essential guide to the history of the modern Middle East Boniface of Crediton and His Companions Based on Lectures Delivered in the Cathedral Church of Bristol in 1906 George Forrest Browne,1910
