tradition of organizing described here an approach that remains dominant in the U S today Alinsky rooted power deeply in the lives relationships and institutions of marginalized and oppressed people In his early organizing days his organizations brought together a wide range of institutions religious congregations and labor unions as well as mutual aid self help athletic sororal and fraternal neighborhood and other voluntary associations By the late 1970s as non congregational neighborhood associations fell into decline organizers in the Alinsky tradition started looking more carefully at how to sustain the vibrancy of the religious institutions that remained Organizers sought to help congregation members become co creators rather than consumers of the life of their churches and worked to help members connect their faith more directly to action in the world In this way they helped make both faith and the action more meaningful This little book tells the story of one congregation that was a member of a broadly based community organization and how a community organizer assisted its development as a true community
