Secondary Drama: A Creative Source Book John Doona, 2013-09-23 Providing inspiration for daily practice alongside a full range of tried and tested schemes of work this exciting new book offers support to secondary teachers wanting to create original drama experiences to meet their own unique classroom needs The book models a positive and reflective approach to classroom practice offering a thoughtful exploration of the craft and art of drama teaching covering key issues such as classroom management student engagement planning progression and assessment After considering the theory behind drama in education and the fundamentals of practice the majority of the text is devoted to the annotated schemes of work These cover a diverse range of topics such as homelessness addiction terrorism and civil rights and show how the ideas discussed can be put into practice *The Creative Christ* Edward Staples Drown, 1922 *Creative Theatre* Roy Mitchell, 1929 *Awakening Artist* Patrick Howe, 2013-08-30 The Awakening Artist Madness and Spiritual Awakening in Art is an art theory book that explores the collision of human madness and spiritual awakening in art It examines a condition of insanity that can be seen in most art movements throughout art history and contrasts that insanity with revelations of beauty wonder and truth that can also be found in many works of art The Awakening Artist references concepts of creativity put forward by Joseph Campbell Carl Sagan Albert Einstein Carl Jung and others Furthermore The Awakening Artist discusses many of the world's most important artists who explored the theme of awakening in art including Michaelangelo Paul Cezanne Claude Monet Marcel Duchamp Morris Graves and many others Additionally using concepts of Eastern philosophy the book presents the case that human creativity originates from the same creative source that animates all of life and that the artist naturally aligns with that creative source when he or she is in the act of creating *The Risen: A Companion to Grief* August Goforth, 2017-08-24 Information and the ways in which it is presented in this book evolves from a multitude of vibrantly complex yet deceptively subtle systems of interwoven Risen and Earthly cosmologies psychologies philosophies sciences mysticisms witticisms ancient and modern arts of drama and healing child animal plant and devic wisdom and humor This book is designed to stimulate and help discover and explore your most personal feelings it will be different for each reader It is not a book of definite answers but of continuous consideration Each of us is our own Inner Scientist Architect Conductor and Taste Tester exploring discovering observing and gathering information while continually asking questions and puzzling about many things Interpenetrating this book is an adjustable framework designed to support adapt and guide Embracing it is an orchestrated Risen performance of grace offering to bring uplifted meaning to the temporary but often terribly empty and lonely darkness of our grief **Creative Understanding** Hermann Graf von Keyserling, 1929 **Creative Freedom** Joseph Warren Teets Mason, 1926 *Towards An Unknown Marx* Enrique Dussel, 2002-09-11 This book is the first complete commentary on Marx's manuscripts of 1861-63 works that guide our understanding of fundamental concepts such as surplus value and production price The recent publication of Marx's writings in their entirety has been a

seminal event in Marxian scholarship The hitherto unknown second draft of Volume 1 and first draft of Volume 3 of Capital both published in the Manuscripts of 1861-63 now provide an important intermediate link between the Grundrisse and the final published editions of Capital In this book Enrique Dussel one of the most original Marxist philosophers in the world today provides an authoritative and detailed commentary on the manuscripts of 1861-63 The main points which Dussel emphasises in this path breaking work are The fundamental category in Marx's theory is living labour which exists outside of capital and which capital must subsume in order to produce surplus value Theories of Surplus Value is not a historical survey of previous theories but rather a critical confrontation through which Marx developed new categories for his own theory The most important new categories developed in this manuscript are related to the forms of appearance of surplus value The final part of the book discusses the relevance of the Manuscripts of 1861-63 to contemporary global capitalism especially to the continuing underdevelopment and extreme poverty of Latin America

Portuguese Piano Music Nancy Lee Harper, 2013-01-10 As the first book of its kind Nancy Lee Harper's Portuguese Piano Music An Introduction and Annotated Bibliography fills the gap in the historical record of Portuguese piano music from its start in the 18th century to the present While although Spanish piano music is well documented owing to the reputation of such composers as Isaac Alb niz Enrique Granados and Manuel de Falla our knowledge of compositions in the tradition of Portuguese piano music has not fared as well barring the work of Carlos Seixas 1704-1742 This obscurity however reflects poorly on the history of early piano music in light of the many compositions written for fortepiano on behalf of the Portuguese court during the first half of the 18th century Indeed it was in the royal halls of King John V during his reign from 1706 to 1750 where the early fortepiano was frequently heard In Portuguese Piano Music Harper explores this rich musical tradition offering a brief introduction to the pianistic history of Portugal and overviews of Portugal's contributions to solo piano music piano in instrumental chamber music piano concerti piano for multiple pianists including with works with electronics and didactic piano While paying close attention to female composers Harper adds an annotated and graded bibliography that presents readers with a comprehensive inventory of compositions Appendixes include a selected discography list of publishers and other types of critical source information To further illustrate its contents Portuguese Piano Music contains a CD on which Harper performs representative repertoire some of which are world premieres This work is aimed at pianists teachers pupils musicologists and music lovers seeking to discover the remarkable world of Portuguese piano music
