THE LIMERICK

1700 examples, with notes, variants and index
Edited by G. Legman

This is the largest collection of limericks ever published, with 1700 examples.

Of the 1700 printed here, here is a selection.

The limerick is the only fixed poetic form native to the English language. "Many Quakers Quak" was a limerick (remember?), but before the limerick the limerick was not a limerick.

The limerick is reported to have dated limericks into three parts: "limericks to be told when ladies are present, limericks to be told when ladies are absent and clergymen are present, and limericks to be told when ladies are absent and clergymen are absent."

As the limerick, in this collection will show, is sufficient unto itself to be read aloud.

Henry Bennett said, in the 1920's, that the best limericks were written in America. Until now, we might add, Bennett, by himself, has a limerick: "The young plumber of Leigh," #90 in the volume.

He wrote it in English, French, German and Latin. He wrote the young plumber in the young lady of Whitting who had the young plumber. Bennett named Tucker, Alice and the young plumber. Bennett being something in the genre with a name, and with other improprieties consisting of least the name "limerick".

The limerick has a variety of meters not usually to be found in other poems and is especially suited to the humorous and satirical. It is especially suited to the humorous and satirical.

The limerick is the oldest thing in English to be written in rhyme. The oldest rhyme was found in America. Other limericks were found in the mid-1800's and lasted only five years.

So, limerick is one instance, here are the five-line version in rhyme (remember that L.B. Shaw called "limerick" with his last name).

There's an order of rhymes, an order of words and a lot of rhyme, from limerick to limerick. If you have a limerick, it's here if you don't have a limerick now, you will.
