Crime In Context:

Crime in Context Ian Taylor, 2019-09-13 At the end of the twentieth century the bookstores are full of books on crime though this title will certainly not find a place on the same shelves In the massive Waterstones bookstore in the city of Manchester England where I lived through most of the 1990s the ground floor display area was rearranged in 1995 so as to accommodate right at the front of the store several hundred new titles on topics like Serial Murderers and Sexual Crimes of the Twentieth Century 1 Several of these new books are companion volumes to movies on release in the city's cinemas or in some instances are simply the original text on which the movies are based The movies in question Shallow Grave Silence of the Lambs Reservoir Dogs Natural Born Killers and others focus heavily on interpersonal violence and murder and also place great emphasis in the manner of many earlier cinematic genres on the idea of the criminal mind not least as a way of dramatizing the detection of the originating criminal act but also to a significant extent these are movies which emphasize the idea and contemporary social presence of evil Similar moral and psychologistic preoccupations are now also widely apparent on primetime television most notably in Britain in the extraordinarily powerful Cracker series produced by Granada Television in 1994 and 1995 watched by over 15 million people and featuring inter alia the forensic investigation of serial and sexual murders some of them extremely graphically displayed Crace 1994 2 The prominence of Gothic themes in movies about violent death is not new in itself there is a long history of interest in the cinema in horror and indeed in transgression and evil What may be definitive about the present genre of movies as well as the range of fictional and non-fictional titles in the bookstores about crime is the overwhelming focus on murder and killing represented in very contemporary and mundane ordinary and indeed respectable settings and the powerful suggestion that these movies are a representation of the risks and dangers involved in everyday life at the end of the twentieth century The bookstore display in Waterstones is straightforwardly called the Real Crimes section **Criminology** Stephen Eugene Brown, Finn-Aage Esbensen, Gilbert Geis, 2013 This highly acclaimed criminology text presents an up to date review of rational choice theories including deterrence shaming and routine activities **The Explanation of Crime** Per-Olof H. Wikström, Robert J. Sampson, 2006

Crime and its Social Context Terance D. Miethe, Robert F. Meier, 1994-07-01 Theories of criminality and theories of victimization have traditionally been discussed as though they bore no relationship to one another Yet a complete explanation for crime must examine both the decision to engage in crime by an offender and the everyday actions of ordinary citizens that increase vulnerability to criminals The integration of these approaches yields testable models that have greater predictive power than could be obtained by looking only at models of offenders or models of victim behavior A more general perspective that accounts for both the decision to engage in crime and the selection of particular crime targets is developed and tested **Crime and Context** Johan Arend Van Wilsem, 2003 **Crime in Context** Ian Taylor, 2013-06-28 This book is a timely and wide ranging account of the relationship between the development of a free market society in Europe and North

America and the fears and anxieties provoked by crime It offers an evaluation of the theoretical schools in social theory and in criminology which continue to dominate the academy but whose purchase on contemporary realities is everywhere slipping

The Explanation of Crime Per Olof H. Wikström, Robert J. Sampson, 2006 An analysis of the roles of behavioural contexts and individual differences in crime causation

Reporting Crime: Effects of social context on the decision of victims to notify the police Heike Goudriaan, 2006

Crime Victims in Context Leslie W. Kennedy, Vincent Sacco, 1998 The book presents an integrated approach to the study of society's crime victims and the forces that influence their victimization The book explores 1 ways in which the victim's role is constructed in the media in public discourse and in political responses to crime 2 approaching victimization as a social event the social exchanges or transaction between victim and offender 3 an exploration of the aftermath of crime 4 responses by the criminal justice system in the adjudication of offender guilt as well as victim support groups Coverage includes both sides of controversial issues which as fear of crime victim blaming the abuse excuse white collar victimization and restorative justice There is extensive treatment of victimization theories and a review of data collection procedures used in collecting information about victimization Numerous examples drawn from real life and recent research serve to illustrate points throughout the book Internet references are also included

Restorative Justice in Context Elmar G. M. Weitekamp, Hans-Jürgen Kerner, 2003 Moves beyond a focus on restorative justice for juveniles to a broader concern with the application of restorative justice in such areas as corporate crime family violence and the application of restorative justice in cases of extreme violent crimes The contexts examined are drawn from Europe North America Australasia and Japan Back cover

The Relationship Between State and Individual Responsibility for International Crimes Beatrice Bonafè,2009-02-23 This book offers a unique comparison between state and individual responsibility for international crimes and examines the theories that can explain the relationship between these two regimes The study provides a comprehensive and systematic analysis of the relevant international practice from the standpoint of both international criminal law and in particular the case law of international criminal tribunals and state responsibility The author shows the various connections and issues arising from the parallel establishment of state and individual responsibility for the commission of the same international crimes These connections indicate a growing need to better co ordinate these regimes of international responsibility The author maintains that a general conception according to which state and individual responsibility are two separate sets of secondary rules attached to the breach of the same primary norms can help to solve the various issues relating to this dual responsibility This conception of the complementarity between state and individual responsibility justifies co ordination and consistent application of these two different regimes each of which aims to foster compliance with the most important obligations owed to the international community as a whole

A History of the Criminal Law of England James Fitzjames Stephen,1883

Memory Detection Bruno Verschuere,Gershon Ben-Shakhar,Ewout Meijer,2011-02-24 Traditional techniques for detecting deception such as the lie detector test or polygraph are based upon the idea that lying is associated with stress

However it is possible that people telling the truth will experience stress whereas not all liars will. Because of this the validity of such methods is questionable. As an alternative a knowledge based approach known as the Concealed Information Test has been developed which investigates whether the examinee recognizes secret information for example a crime suspect recognizing critical crime details that only the culprit could know. The Concealed Information Test has been supported by decades of research and is used widely in Japan. This is the first book to focus on this exciting approach and will be of interest to law enforcement agencies and academics and professionals in psychology criminology policing and law.
