American Commander In Spain:

American Commander in Spain Marion Merriman, Warren Lerude, 2020-09-22 The Spanish Civil War 1936-1939 was a confrontation between supporters of Spain's democratically elected Republic including peasants, communists, union workers and anarchists and an alliance of nationalist Army rebels and upper class forces including the Catholic Church and landlords led by General Francisco Franco. In the political climate of the time, this civil war became the focus of foreign interests advocating conflicting ideas of democracy and fascism. Spain became a training ground where Nazi Germany and Fascist Italy tested military techniques intended for use in a yet to be declared wider world war. Although most Western nations embraced a neutrality pact, individual volunteers from around the world, including the United States, made their way to Spain to support the Republican cause. Among the Americans was Robert Hale Merriman, a scholar who had been studying international economics in Europe. He and his wife Marion joined volunteers from fifty-four countries in the International Brigades. Merriman became the first commander of the Americans Abraham Lincoln Battalion and a leader among the International Brigades. Now available in a new paperback edition, *American Commander in Spain* is based on Merriman and Marion's diaries and personal correspondence, Marion's own service at his side in Spain, as well as Warren Lerude's extensive research and interviews with people who knew Merriman and Marion, government records, and contemporary news reports. This critically acclaimed work is both the biography of a remarkable man who combined his idealism with life-risking action to fight fascism threatening Europe and Marion's vivid first-hand account of life in Spain during the civil war that became a prologue to the Second World War.

American Commander in Spain Marion Merriman, 2020 [American commander in Spain](#) Marion Merriman, 1986 *Locating the Transatlantic in Twentieth-century Politics, Diplomacy and Culture* Gaynor Johnson, 2024-01-25 Written in tribute to the work of Professor Alan Dobson, this collection of essays brings diplomacy and the Anglo-American relationship together, considering politics and foreign policy in tandem with cultural interactions. Uniquely placed to define exactly what transatlanticism is and to explore the ways in which this idea has evolved in the last 150 years, this book asks to what extent can it be argued that there was a transatlantic world, how can it be defined, and what was unique about it. With contributions from leading scholars, it offers an overview of the field as well as a comparative exploration of Anglo-American relations. From emotion in foreign policy decision-making to the RAF in the Vietnam War, as well as leader personalities and transatlantic reactions to women's rights in China, *Locating the Transatlantic in Twentieth-century Politics, Diplomacy and Culture* explores this special relationship at many levels and from many angles. It further asks how this relationship has evolved over the years and considers how it might survive in a globalized post-industrial world.
