percent by 2020 with almost half of the energy increment occurring in developing Asia including China and India By 2020 energy consumption in developing Asia is projected to surpass consumption in North America The energy form contributing most to the growth is electricity as developing Asia establishes its energy infrastructure Coal the predominant indigenous fuel in that region will be the fuel of choice in electricity production The CCTs offer a means to mitigate potential environmental problems associated with unprecedented energy growth and to enhance the U S economy through foreign equipment sales and engineering services
