**Philosophy of Religion and the African American Experience** John H. McClendon III, 2017-07-03 Most white philosophers of religion generally presume that philosophy of religion is based on what is a false universality whereby the white Western experience is paradigmatic of humanity at large The fact remains that Howard Thurman James H Cone and William R Jones among others have produced a substantial amount of theological work quite worthy of consideration by philosophers of religion Yet this corpus of thought is not reflected in the scholarly literature that constitutes the main body of philosophy of religion Neglect and ignorance of African American Studies is widespread in the academy By including chapters on Thurman Cone and Jones the present book functions as a corrective to this scholarly lacuna **Religion and the American Experience** , Swift s ten chapters cover a wide variety of topics from religion in the early republic to early African American religion women reform nativism movements and fundamentalism all the way up to the contemporary culture wars spanning nearly two and a half centuries and synthesizing a large amount of material from social cultural and intellectual history **The American Journal of Religious Psychology and Education** ,1907 We Have Been Believers James H. Evans,1992 In this the first full scale black systematic theology in twenty years James Evans emerges as a major and distinctive voice in American theology Seeking to overcome the chasm between church practice and theological reflection Evans situates theology squarely in the nexus of faith with freedom There with a sure touch he uplifts revelatory aspects of black religious experience that reanimate classical areas of theology and he creates a theology with a heart a soul and a voice that speaks directly to our condition Morning by Morning Ronald S.
