Christie, 2015-11-06 The Italian Army developed a sound and unique combined arms doctrine for mechanized warfare in 1938 This new doctrine was called the War of Rapid Decision It involved the use of mechanized warfare in the Italian version of the blitzkrieg This doctrine evolved from the lessons learned in the Italian Ethiopian War of 1935 to 1936 and the Spanish Civil War of 1936 1939 With Italy's entry into World War II military operations ensued along the Libyan Egyptian border between the Italian 10th Army and a much smaller British Western Desert Force The Italian Army in Libya outnumbered the British Army in Egypt by a ratio of four to one The setting seemed to be ideal for the employment of the War of Rapid Decisions Moreover Marshal Rodolfo Graziani who was the commander of the Italian 10th Army in North Africa during its first campaign in the western desert had pioneered this new form of mechanized warfare during the Ethiopian War Surprisingly the Italian forces in Libya did not employ their new doctrine reverting instead to more conventional techniques of mass It was Graziani's failure to utilize the doctrine which he had helped to develop that led to Italy's embarrassing defeat in 1941 *Professional Journal of the United States Army*, 1981 *Operation Barbarossa: the Complete Organisational and Statistical Analysis, and Military Simulation Volume IIA* Nigel Askey, 2013-11-01 Operation Barbarossa Volume IIA concerns the Wehrmacht All the significant German weapon systems and combat squads used in the campaign are analysed using the quantitative methodology detailed in Volume I along with the contextual history An assessment of each weapon system's inherent combat power is provided as well as attributes such as the relative anti tank anti personnel and anti aircraft values Volume IIA then focuses on the detailed Kriegstarkenachweisungen KStN or TOE for German land units including those in the West as well as the unit's actual organisation and equipment All significant units in the German Army Heer Waffen SS Luftwaffe and security forces are included ranging from the largest panzer divisions down to small anti aircraft companies military police units Landeschützen battalions and rail road and construction companies In all cases the data is presented in detailed tables using the weapon systems and combat squads previously analysed
