Digital Assets Online Session **Digital Platform Leadership: Exploring the Role of National Factors, Platform, and Customer Type** Jonas Kaufmann-Ludwig, 2022-06-13 Master's Thesis from the year 2020 in the subject Computer Science Commercial Information Technology grade 1-3 Technical University of Munich language English abstract Digital platforms are an ubiquitous phenomenon that threatens incumbent firms Among digital platform providers the competition is fierce Platform giants such as Google Amazon or Microsoft strive for platform leadership The question of how to achieve platform leadership is equally essential for platform companies and incumbent firms transforming into platform business models This thesis aimed to provide a fundamental building block for the analysis of this question In the first step a taxonomy that conceptualizes platforms from a business model perspective was created In the second part of this thesis this taxonomy was used to analyze configurations of successful and leading platform business models This thesis found multiple configurations of platform leaders within an ecosystem level and firm level model The two models extended existing theory on the causal relation of factors on platform leadership

Defining Digital Preservation Work Christopher A. Lee, 2005 I report on a multi method case study of the development of the Reference Model for an Open Archival Information System a standard which describes components and services required to develop and maintain archives in order to support long term access and understanding of the information in those archives Development of the OAIS took place within the Consultative Committee for Space Data Systems a standards development organization which formally represents space agencies but the effort reached far beyond the traditional CCSDS interests and stakeholders becoming a fundamental component of digital archive research and development in various disciplines and sectors Through document analysis social network analysis and qualitative analysis of interview data I explain how and why the OAIS development effort was transformed into a standard of much wider scope relevant to a diverse set of actors
