**Defining Nations** Tamar Herzog, 2008-10-01 In this book Tamar Herzog explores the emergence of a specifically Spanish concept of community in both Spain and Spanish America in the eighteenth century Challenging the assumption that communities were the natural result of common factors such as language or religion or that they were artificially imagined Herzog reexamines early modern categories of belonging She argues that the distinction between those who were Spaniards and those who were foreigners came about as local communities distinguished between immigrants who were judged to be willing to take on the rights and duties of membership in that community and those who were not The President's Proposal on the Middle East United States. Congress. Senate. Committee on Foreign Relations, 1957 A Nation upon the Ocean Sea Daviken Studnicki-Gizbert, 2007-01-04 With the opening of sea routes in the fifteenth century groups of men and women left Portugal to establish themselves across the ports and cities of the Atlantic or Ocean sea They were refugees and migrants traders and mariners Jews Catholics and the Marranos of mixed Judaic Catholic culture They formed a diasporic community known by contemporaries as the Portuguese Nation By the early seventeenth century this nation without a state had created a remarkable trading network that spanned the Atlantic reached into the Indian Ocean and Asia and generated millions of pesos that were used to bankroll the Spanish empire A Nation Upon the Ocean Sea traces the story of the Portuguese Nation from its emergence in the late fifteenth century to its fragmentation in the middle of the seventeenth and situates it in relation to the parallel expansion and crisis of Spanish imperial dominion in the Atlantic Against the backdrop of this relationship the book reconstitutes the rich inner life of a community based on movement maritime trade and cultural hybridity We are introduced to mariners and traders in such disparate places as Lima Seville and Amsterdam their day to day interactions and understandings their houses and domestic relations their private reflections and public arguments This finally textured account reveals how the Portuguese Nation created a cohesive and meaningful community despite the mobility and dispersion of its members how its forms of sociability fed into the development of robust transatlantic commercial networks and how the day to day experience of trade was translated into the sphere of Spanish imperial politics of commercial reform based on religious ethnic toleration and the liberalization of trade A microhistory A Nation Upon the Ocean Sea contributes to our understanding of the broader histories of capitalism empire and diaspora in the early Atlantic

**A Microhistory of Early Modern Transatlantic Migration** Alejandro Salamanca Rodríguez, 2025-03-25 This microhistory of early modern transatlantic migration follows the journey of the Agata a Dutch frigate hired by Spanish merchants in 1747 to travel between Cádiz and Veracruz Manned by migrants from across Europe the Agata was intercepted by British privateers on its return trip an event that led to the preservation of most of the documents on board including a collection of personal letters Through a microscopical lens this book delves into the lives of some of the migrants linked to the Agata either as members of the crew a ship after all is a moving workplace as passengers or as people sending letters

through the ship Their stories and anecdotes illustrate how early modern migrants in the Spanish Atlantic navigated the often restrictive migration laws stayed connected with family and friends back home sent remittances and gifts and built networks to support new migrants A Microhistory of Early Modern Transatlantic Migration is written for anyone interested in the history of migration regardless of their familiarity with the specific historical context It aims to engage both specialists and general readers interested in migration labour seafaring and social history This book also seeks to bridge some gaps between contemporary migration studies and migration history serving as an introduction to these fields for non specialist readers while providing new insights from unpublished sources not previously examined by other historians and offered in translation
