**Delos** Phōteinē Zappeiropoulou,2007 *Delos, Monuments and Museum* Photini Zaphiropoulou,1983 Delos Kōnstantinos Tsakos,2008 **Encyclopedia of Sacred Places** Norbert C. Brockman,2011-09-13 Now thoroughly revised and updated this encyclopedia documents the diversity of shrines temples holy places and pilgrimage sites sacred to the world s major religious traditions and illustrates their elemental place in human culture As interest increases in the role of world religions in history and international affairs the new edition of Encyclopedia of Sacred Places which arrives 15 years after the publication of the original edition provides new and updated information on site specific religious practice and spiritually significant locations around the globe While many of the entries describe specific places like the Erawan Shrine and the Rock of Cashel others examine types of sacred sites pilgrimages and practices With articles that describe both the places and their associated traditions and history this reference book reveals the enormous diversity and cultural significance of religious practice worldwide For students and teachers of classes ranging from high school geography to university level courses in religious studies geography anthropology and sociology this book provides essential reference on places of great significance to the world s various faith traditions **Greek Funerary Sculpture** Janet Burnett Grossman,2002-01-03 This illustrated catalogue presents fifty nine Greek funerary monuments in the Antiquities collection of the Getty Museum Spanning the Classical and Hellenistic periods the sculptures typically show the deceased either alone or surrounded by family Ranging from depictions of seated mothers and modest maidens to nude boys and armed warriors this collection offers new insight into Greek art and society that will undoubtedly pique the interest of both scholars and the general public **BOOK JACKET** **Aegean Islands** Elizabeth Boleman-Herring,1998 Wouldn t it be wonderful to see the sights with your own local host to give you a native s point of view Insight s Pocket Guides deliver this personal service with a sleek portable guide that gives you the inside scoop It s not just what you see it s the sense of what you re seeing Filled with practical tips full and half day itineraries and loads of personal recommendations these indispensable guides are ideal for travelers with limited time to spare Many Pocket Guides come complete with a pull out map making your travel so much simpler *Battle for Survival* ,1950 *Wealth, Aristocracy And Royal Propaganda Under the Hellenistic Kingdom of the Mithradatids in the Central Black Sea Region of Turkey* Deniz Burcu Erciyas,2006 This study of the reign of Mithradates VI 120 63 BC attempts to combine the history of the belligerent Roman Empire and the indomitable kingdom of Pontus with the archaeology of the Turkish Black Sea region **Greece** René Puaux,1920 *Museum News* ,1929 *Hellenistic Sculpture* Brunilde Sismondo Ridgway,1990 This is the final volume in Brunilde Sismondo Ridgway s series of books covering the entire range of Greek sculpture from its inception to its virtual end as it merged into the production of the Roman Imperial world Volume III discusses sculptural works both architectural and free standing from approximately 100 B C to the Battle of Actium 31 B C which removed from power the last Hellenistic ruler Although some monuments may belong to the years just before or just

after this timespan Ridgway's aim is to concentrate on works plausibly dated to the first century B C even those with highly controversial chronologies Famous sculptures the Laokoon the epic groups from the Sperlonga cave the Belvedere Torso the bronze Boxer in the Terme Museum and many others are discussed together with less well known pieces Ridgway gives special emphasis to the finds from two shipwrecks the Mahdia and the Antikythera wrecks that provide a reasonable terminus ante quem and argues that many of the stylistic trends and decorative objects usually considered typically Roman instead have their roots in the Greek world This last Hellenistic phase is perhaps the most interesting of the three because it documents to a great extent the transformation of the products of one culture into those of another with different interests and priorities Far from being an unimaginative inferior output driven by commercial considerations the statuary of the first century B C is vibrant and inventive drawing from many sources in a stylistic eclecticism **Assaph**, 1996 **Hellenistic Gold Eros Jewellery** Monica M. Jackson, 2006 This work presents systematic and objective examination of the large corpus of Hellenistic gold Eros jewellery By focusing on the question of the interconnections between the major centres of production Egypt South Italy and South Russia Western Asia Minor Greece and Syria a number of regional schools and new jewellery groups are identified The keys to the discussion are the well documented find contexts from Northern Greece South Italy and Tel Atrib Egypt that make it possible to arrive at a relative chronology for a particular type of Eros found throughout the Hellenistic world The morphological stylistic iconographic and technical continuities between Hellenistic jewellery and in particular the Eros motif ensure the successful use of this methodology Evidence from Koroni in Attica and from several South Italian tomb groups has been examined in detail and dated according to the methodology described above to ca 240 BC The study includes a discussion of the significance of Eros in the Hellenistic period The study has shown the value of Eros jewellery as an indicator of the cultural life of the Hellenistic world its values literature and basic lore about nature and the arts The Eros motif and its morphological lineage are traced through related depictions in contemporaneous decorative arts The catalogue has brought together as much material as possible to establish a typology and chronology of Eros jewellery in the hope that it will provide the maximum amount of information for future studies 32 plates including 12 in colour illustrate the work **Greece on \$35 a Day** George McDonald, Kyle McCarthy, 1990-02 **Ancient Greek Portrait Sculpture** Sheila Dillon, 2006-04-24 This book offers a new approach to the history of Greek portraiture by focusing on portraits without names Comprehensively illustrated it brings together a wide range of evidence that has never before been studied as a group Sheila Dillon considers the few original bronze and marble portrait statues preserved from the Classical and Hellenistic periods together with the large number of Greek portraits known only through Roman copies In focusing on a series of images that have previously been ignored Dillon investigates the range of strategies and modes utilized in these portraits to construct their subject's identity Her methods undermine two basic tenets of Greek portraiture first that it was only in the late Hellenistic period under Roman influence that Greek portraits exhibited a wide range of styles including

descriptive realism and second that in most cases one can easily tell a subject's public role that is whether he is a philosopher or an orator from the visual traits used in this portrait. The sculptures studied here instead show that the proliferation of portrait styles takes place much earlier in the late Classical period and that the identity encoded in these portraits is much more complex and layered than has previously been realized. Despite the fact that these portraits lack the one feature most prized by scholars of ancient portraiture a name they are evidence of utmost importance for the history of Greek portraiture.

**Greek Iron Age Architecture** Kåre Fagerström, 1988

ABSTRACT This study originated in an attempt to gather recent information in Greek Iron Age original drawings. What conclusions may be drawn from this information this attempt has indeed been carried through but additionally it was found that a critical re-examination of the entire body of the material was necessary. This body comprises archaeological, societal, palaeobotanical, palaeozoological and other subjects. I believe only pottery dating was left undisputed. The study is divided into three main parts. The first part is devoted to the examination of the archaeological material ordered as a catalogue of sites. The second part concerns matters of technique and siting while the third deals with function and society. In the course of the study it emerged that not only were there profound changes and major developments in architecture but also and interrelated with those in architecture there were changes and developments in societal and economic strategies. The study came to focus on these changes and the relationships between them. The results suggest a number of developments of which the most important are:

1. A decline of prosperity and communications after the Bronze Age already noted was emphasized by a strict regionalism and primitivity of architecture, a reversion to a herding economy coupled with traces of an exceptionally primitive form of government.
2. A renewal of seafaring and of agriculture as the main subsistence strategy architecturally heralded by an emphasis on vast diversified and conspicuous storage facilities. Populations grew as a result of increase of produce and goods exchange.
3. Architecturally in essence a continuation of inference Nr 2 above. A societal crisis brought about by the increase of populations is reflected in new forms of government, in the codification of laws, an emphasis on meeting places and as a result a new architectural phenomenon arises: the Greek temple. The early temples are typically the focal points of the new Greek community, the polis.
