Democracy And Northern Ireland:

Democracy and Northern Ireland A. Little, 2004-03-31 Democracy and Northern Ireland examines the influence of liberal theories of democracy on recent developments in the Northern Irish peace process In so doing it analyzes the applicability of theories such as political liberalism multiculturalism and deliberative democracy to deeply divided societies Little contends that these models need to build upon recent critiques provided by feminists and civil society theorists in the construction of a more radical interpretation of democracy that can provide a framework for democratic politics in Northern Ireland *Power to the People?* Rick Wilford, Robin Wilson, Kathleen Claussen, 2007 [Elected Representatives and the Democratic Process in Northern Ireland](#) Great Britain. Northern Ireland Office, 1987

The Politics of Antagonism Brendan O'Leary, John McGarry, 2016-10-06 Written during the Northern Ireland peace process and just before the Good Friday Agreement The Politics of Antagonism sets out to answer questions such as why successive British Governments failed to reach a power sharing settlement in Northern Ireland and what progress has been made with the Anglo Irish Agreement O Leary and McGarry assess these topics in the light of past historical and social science scholarship in interviews of key politicians and in an examination of political violence since 1969 The result is a book which points to feasible strategies for a democratic settlement in the Northern Ireland question and which allows today s scholars and students to analyse approaches to Northern Ireland from the perspective of the recent past

Gender, Democracy and Inclusion in Northern Ireland C. Davies, C. Roulston, 2000-10-24 Mainstream politics in Northern Ireland has not been welcoming to women but many women have been present in community and voluntary organizations where their contribution has been outstanding This book examines four organizations including the recently formed Northern Ireland Women s Coalition where women have been active It discusses the processes and structures created by these groups in order to work democratically across differences and argues that their experiences are invaluable to the development of feminist debates on democracy and difference

Politics of Radical Democracy Adrian Little, 2019-08-05 This book addresses the idea of radical democracy one of the most vibrant currents in contemporary political thought in poststructuralist terms **Some Facts about 'democracy' as Practised in Northern Ireland** A. Mulvey, 1947

Strengthening Democracy in Post-Conflict Northern Ireland Maria Power, 2015-04-02 When the Good Friday Agreement was signed in 1998 those involved believed they had brought about peace in Northern Ireland In 2007 the Democratic Unionists and Sinn Fein entered government together Although the British and Irish governments believed the Peace Process was complete this essay shows that peace building work is still needed to heal the sectarian divisions within society Back cover [The Northern Ireland Question in British Politics](#) S. McDougall, P. Catterall, 2016-07-27 Whilst there are any number of books on the subject of Northern Ireland few provide much guidance on how it has been handled by Westminster and Whitehall or indeed the extent to which British governments and Parliament has tried to avoid having to handle the issue This book provides a much needed historical context in which to assess

contemporary approaches to the Northern Ireland problem and in essays covering the period from the establishment of the Northern Ireland state to the present day points to many often overlooked continuities in British policy **The Report of the Democracy Commission** Clodagh Harris, 2005 **Devolution and Democracy in Northern Ireland** General Council of the Bar of Northern Ireland, 2017 Rights in Divided Societies Colin Harvey, Alex Schwartz, 2012-07-20 This collection examines the role and value of domestic rights instruments in divided and post conflict societies approaching the subject from a comparative and theoretical perspective *Constitutions in Crisis* John E. Finn, 1991 With special reference to the experience of Britain and Germany this book examines the dilemma faced by constitutional governments in trying to draft anti terrorist laws while preserving civil liberties **Imposing Power-sharing** Michael Kerr, 2006 This book is a comparative analysis of power sharing agreements and peace processes in Northern Ireland and Lebanon examining parallel journeys both societies took through power sharing to civil war returning to power sharing again It criticises and builds on the consociational democracy literature and takes an international perspective arguing that the external states with an interest in these ethno national conflicts largely determined the outcome of their power sharing accords It evaluates and contrasts the imposition of power sharing as a means to regulate ethnic conflict in a democratic environment with a non democratic one What makes the book unique is its ability to compare for the first time in print the ethnic conflicts and power sharing agreements in both countries The sources used are based on exclusive access in the UK Ireland and Lebanon with over 125 interviews conducted for the book This timely publication brings the situation in both parts of the world up to date and evaluates the costs and benefits of external intervention in divided societies by regional or international powers

Deliberative Democracy and Divided Societies Ian O'Flynn, 2006-06-30 In a world where the impact of internal conflicts is spreading ever wider there is a real need to rethink how democratic ideals and institutions can best be implemented This book responds to this challenge by showing that deliberative democracy has crucial but largely untapped normative implications for societies deeply divided along ethnic lines Its central claim is that deliberative norms and procedures can enable the citizens of such societies to build and sustain a stronger sense of common national identity More specifically it argues that the deliberative requirements of reciprocity and publicity can enable citizens and representatives to strike an appropriate balance between the need to recognise competing ethnic identities and the need to develop a common civic identity centred on the institutions of the state Although the book is primarily normative it supports its claims with a broad range of empirical examples drawn from cases such as Bosnia and Herzegovina Lebanon Macedonia Northern Ireland and South Africa It also considers the normative implications of deliberative democracy for questions of institutional design It argues that power sharing institutions should be conceived in a way that allows citizens as much freedom as possible to shape their own relation to the polity Crucially this freedom can enable them to reconstruct their relationship to each other and to the state in ways that ultimately strengthen and sustain the transition from ethnic conflict to democracy **In Place**

of Fear Stephen Livingstone, John Morison, 1995 Governing Taiwan and Tibet Baogang He, 2015-07-08 Could democracy realistically address the problems in China's national identity Baogang He opens up a dialogue in which Chinese liberals can offer viable alternatives in defence of key democratic principles and governance **Religiously Oriented Parties and Democratization** Luca Ozzano, Francesco Cavatorta, 2014-04-03 To the surprise of both academics and policy makers religion has not been relegated entirely to the private sphere quite the contrary Over the last few decades religion has begun to play a significant role in public affairs and in many cases directly in political systems This edited volume analyses in detail how religion and religious precepts inform the ideology strategies and electoral behaviour of political parties Working with an original and innovative typology of religiously oriented political parties the book examines cases from different regions of the world and different religious traditions to highlight the significance of religion for party politics This interest for religiously oriented parties is combined with an interest in processes of democratic change and democratic consolidation Political parties are central to the success of processes of democratization while religion is seen in many circles as an element that prevents such success because it is perceived to be a polarising factor detrimental to the consensus necessary to build a liberal democratic system Through the different case studies presented here a much more complex picture emerges where religiously oriented political parties perform very different and often contradicting roles with respect to democratic change This book was published as a special issue of Democratization **Democratic Deliberation in Deeply Divided Societies:** E. Ugarriza, D. Caluwaerts, 2014-06-26 Through case analysis and cross sectional assessment of eleven countries this collection explores the most deeply divided societies in the world in order to highlight what deliberative democracy looks like in a deeply divided society and to understand the conditions that deliberative democracies could realistically emerge in difficult circumstances The Parliamentary Debates (official Report).
