

# 3. Narratives of fundamentalism, negative capability and the democratic imperative

*Alan Bainbridge and Linden West*

## The starting point: Fundamentalism is ordinary

The notion that 'we', as individuals, whole groups or cultures, possess the truth and nothing but the truth, unlike the other and otherness, seems to be a universal discursive tendency, colonizing diverse minds and hearts, across different historical times and geographical spaces. The truth and nothing but the truth of politics, religion, economics, and of myth and diverse ideologies - here lies the province of the fundamentalist; and maybe the fundamentalist lurking in every one of our psychologies and cultures. Fundamentalism, we argue, is quite ordinary.

The word fundamentalism was coined in California and its origins lie in Protestant movements in nineteenth century America. These movements consisted of people who wanted to assert the inerrancy of the Bible - the direct creation of the world and humanity *ex nihilo* by God as opposed to Darwinian evolution - and the authenticity of miracles and the Virgin birth. But fundamentalism and related discourses of absolute truth encompass very different phenomena (Ruthven, 2007). Following Wittgenstein, the word, heuristically, is helpful in a search for discursive similarities across different forms. Of course, not every person we call a fundamentalist reaches for a Kalashnikov or pipe bomb. But, broadly speaking, fundamentalism can be thought of as a retreat from engagement with others and otherness, rooted, perhaps, in feelings of disrespect, marginalization and or psychological or even cultural vulnerability. It works at the level of discourse or metanarrative, colonizing inner space: the other - whether Jew, 'white trash', 'people of colour', Muslims, working class people, etc - is to blame for a range of ills. Fundamentalism also presents itself as beyond contestation, that there is simply no alternative available, as in the kind of market fundamentalism pervading the contemporary world. In the case of racism and Islamism people turn to

# Democratic Imperative

**Jin-Ying Zhang**

## **Democratic Imperative:**

*Democratic Imperative* The Gregory A. Fossedal,1989-05-08      *Democratic Imperative* Robert Corfe,2013-04-22

Democracy understood as people power which is the only proper definition of the word is put forward in this book as the panacea for resolving the most pressing issues of our time But democracy as a practicable system hinges on many conditions which are seldom appreciated by our world leaders international institutions or relevant bodies of learning The evolution of democracy as a system of government and way of life and the problems to which the former gives rise is broadly discussed by the author Of most significance are those situations in both East and West when democracy is ideologically used as a cover for ulterior purposes It is powerfully argued that the left right divide which for 200 years has served as the rationale for advancing social progress in sustaining democracy is now destroying it as partly witnessed through the collapse of both party memberships and voting figures in most advanced industrial economies This has occurred through the transformation of society and the world of work over the past 60 years and has left our parliamentary representatives trapped in a time warp of the past in their inability to meet the actuality of contemporary issues It is clearly shown through a variety of reasons that democracy as an all inclusive system of government is only workable within the nation state This partly explains the crises of the EU and the shortcomings of the UN s Security Council The greatest threat to democracy since it limits the power of the nation state to carry through electoral promises is international finance and transnational corporations which are unaccountable to any responsible authority and liable to bring economic catastrophe in their wake This is a book which seeks to empower our national politicians irrespective of party so they may more effectively represent the interests of their electorates A way must be found for our politicians to resolve their predicament even though it may entail a shift in their attitudes and ideals

*Designing Democracy* G. Pridham,2005-05-11 *Designing Democracy* is the first systematic and in depth study of the effects of the EU s democratic conditionality originally set out in the Copenhagen conditions of 1993 on the new political systems of Central and Eastern Europe Using new material drawn from extensive elite interviews in several of these countries as well as in Brussels the book throws much light on how far the EU enlargement process has really strengthened these new post Communist democracies following their transitions in the 1990s

*Savage Democracy: Institutional Change and Party Development in Mexico* ,      **The Cancellation of Election Results** European Commission for Democracy through Law,2010-01-01 Electoral law like all other fields of law Is effective only if it provides for sanctions The cancellation of elections results The most serious of sanctions Is in general linked To The most serious of irregularities especially when its effects are felt beyond a small constituency However small technical inaccuracies may affect election results if the difference in votes is minimal As recent examples such as the notorious 2000 United States presidential elections have shown This book aims to determine when electoral disputes should lead to such a consequence based on the practice of national constitutional and supreme courts throughout Europe As well as on the practice of the European Court of

Human Rights This publication contains the reports presented at the Seminar on Cancellation of Election Results organised by the Venice Commission in co operation with the Constitutional Court of Malta And The Maltese Ministry of Justice and Home Affairs On 14 and 15 November 2008

**Democracy in the European Union** Erik Oddvar Eriksen, John Erik Fossum, 2002-09-11 The European Union is widely held to suffer from a democratic deficit and this raises a wider question can democracy at all be applied to decision making bodies beyond the nation state Today the EU is a highly complex entity undergoing profound changes This book asks how the type of cooperation that the EU is based on can be explained what are the integrative forces in the EU and how can integration at a supra national level come about The key thinkers represented in this volume stress that in order to understand integration beyond the nation state we need new explanatory categories associated with deliberation because a supranational entity as the EU possesses far weaker and less well developed means of coercion bargaining resources than do states The most appropriate term to denote this is the notion of deliberative supranationalism This pioneering work headed by major writers such as Habermas Schlesinger and Bellamy brings a new perspective to this key issue in contemporary politics and political theory

**Accountability, Pragmatic Aims, and the American University** Ana M. Martínez-Alemán, 2012-03-12 Accountability Pragmatic Aims and the American University frames the debates on teaching and learning accountability in Higher Education By examining significant historic periods in Higher Education Mart nez Alem n explores the present apprehension about accountability in today s colleges and universities Throughout the book s chapters Mart nez Alem n uses the pragmatic philosophy of John Dewey to enlighten current understandings of professional freedoms and she also discusses democratic imperatives in light of accountability obligations the teaching of undergraduates data and empirical research on college teaching and learning and the institutional policies for graduate student and faculty teaching development This book reveals the tensions between the democratic character of the university qualities that may seem irreconcilable with accountability metrics and the corporate or managerial economies of modern American universities Higher Education faculty administrators public policy makers and students enrolled in Higher Education Masters and PhD programs will find that this book informs their practice and will serve to contribute to the debates on accountability for years to come

A Radical Democratic Critique of Capitalist Education Richard A. Brosio, 1994 Winner of 1994 AESA Critics Award This book offers a sober assessment of power in the U S and its K 12 public schools In spite of impressive democratic achievements in schools and society the hegemonic and raw power of antidemocratic capitalism is significantly greater The author s critical analysis which owes a debt to the Western tradition of radical democracy suggests that hegemony and repression are inextricably connected therefore the hopes for a more genuinely democratic polity and supportive education are problematic An unflinchingly tough evaluation of the realities and complexities of antidemocratic power and practice is of crucial importance to present democratic projects and the hope for their successful realization in our schools and extramural sites The challenge of postmodern thought to democratic

aspirations is considered also **Proceedings of the First-seventeenth Conference for Education in the South ... . 1898-1914** ,1905 *The Strategic Presidency* James P. Pfiffner,1996 The best book on the importance of presidential transitions to the long term successes of administrations Contemporary scholars and practitioners will be especially interested in Pfiffner s treatment of the problems that surrounded the Clinton administration s troubled start Mark J Rozell author of *Executive Privilege* *The New Philosophy of Modern Science* William Walker Strong,1920 **Pamphlets on Wages** ,1919 *New York Court of Appeals. Records and Briefs.* New York (State)., *Democracy and the Environment* William M. Lafferty,James Meadowcroft,1996 The relationship between environmental values and goals and democratic theory and practice is explored through original essays by established scholars whose conclusions are then integrated by the editors into a concluding essay This major book illustrates and analyses the many ways in which environmental problems pose difficulties for democratic decision makers Environmental problems impact across established regional and national boundaries and involve complex social processes intricate patterns of loss and gain and time scales which do not synchronize with electoral political systems *Report ... [and Proceedings]* New York (State). Legislature. Joint Committee to Investigate Primary and Election Laws,1910 **Documents of the Senate of the State of New York** New York (State). Legislature. Senate,1910 **Participation, Democracy and Control** Peter A. Reilly,1979 Research report describing various forms of workers participation in the UK covers definitions and concepts joint consultation and collective bargaining structures workers representation on boards workers self management and workers control etc And discusses access to information and training for participation issues Bibliography pp 51 and 52 and diagrams **Law and State** ,1996 *The Role of the Media in Promoting Democracy and Good Governance* Philliat Matsheza,Noel Kututwa,2005 **Industrial Democracy** Roger Benedictus,C. J. Bourn,Alan C. Neal,1977 Conference report on the implications of the bullock report on workers participation in the UK examines its impact on commercial law collective bargaining labour relations in public enterprises etc and discusses experiences in other Western European countries and the EC and the trade union viewpoint References Conference held in leicester 1977 April 4 and 5

Yeah, reviewing a books **Democratic Imperative** could accumulate your near friends listings. This is just one of the solutions for you to be successful. As understood, achievement does not suggest that you have fabulous points.

Comprehending as capably as deal even more than other will have enough money each success. next to, the proclamation as with ease as keenness of this Democratic Imperative can be taken as without difficulty as picked to act.
