Deity Cosmos Man:

Deity, Cosmos and Man Geoffrey A. Farthing,1993-01-01 Esoteric science the Wisdom religion embraces all that is good and true in the great religions of mankind but yet transcends them all As far as can be expressed in words it reflects truth insisting of the unity of the cosmic process in which each individual is as a spark to the flame We are of like nature with the Cosmos and being of one Essence we are members of one family a family that includes all things and all beings In this book the author has attempted to offer an outline of Esoteric Science with abundant reference to the great literature in which the student may discover for himself some of the scope and grandeur of the Wisdom Tradition Deity, Cosmos, and Man Geoffrey A. Farthing,1993-01-01 Esoteric science the Wisdom religion embraces all that is good and true in the great religions of mankind but yet transcends them all As far as can be expressed in words it reflects truth insisting of the unity of the cosmic process in which each individual is as a spark to the flame We are of like nature with the Cosmos and being of one Essence we are members of one family a family that includes all things and all beings In this book the author has attempted to offer an outline of Esoteric Science with abundant reference to the great literature in which the student may discover for himself some of the scope and grandeur of the Wisdom Tradition *God, Cosmos, and Man* Wayne Fields,1998 God Cosmos and Man builds a powerful scientific interpretation of existence centered on the meticulous integrated development of several main concepts 1 Matter here and everywhere spontaneously self organizes 2 All order we see in the universe has resulted from matter s self organization 3 Life is the highest state of spontaneously self organized matter and almost certainly exists widely in the cosmos 4 Mind is the highest state of life seemingly capable of exerting progressively increasing control over the universe as intelligence further evolves 5 Science seems to be telling us that god may be different than at least the Western religions would have us believe Humans basically had a blind faith religious view of existence when modern science arose about 400 years ago But science has progressively superceded religion relative to many critical issues and remaining topics seem likely to fall to science s relentless onslaught as well This book carefully crafts a powerful argument based on diverse biological and physical disciplines to show how a remarkably consistent world view emerges from today s science Such a new perspective carries powerful attributes that may be more satisfying for many and as any world view should do and agrees with what we actually see This book provides a fresh penetrating scientific analysis of existence and reveals veiled but powerful interrelations between matter conscious mind and cosmic makeup that suggest imaginative new views of god **The Religious Quests of the Graeco-Roman World** Samuel Angus,1929 **Past & Present** Thomas Carlyle,1904 Thomas Carlyle's Works Thomas Carlyle,1885 *Latter-day pamphlets* Thomas Carlyle,1885 **The New Schaff-Herzog Encyclopedia of Religious Knowledge: Son of Man-Tremellius** Albert Hauck,Samuel Macauley Jackson,Charles Colebrook Sherman,George William Gilmore,1911 The Unitarian Advance ,1912 **The Western Conference News-letter** ,1910 **A homiletic commentary on the book of Lamentations. Though this is a learned book as close a study as possible of the basic elements in the thought and structure of the Fourth Gospel it will be recognised at once as the study of a scholar who spares no labour that will bring him and his reader near to the pith and conviction of the Evangelist himself The plan of Dr Dodd s work is this first by research to reconstruct the background and stir of thought out of which the Fourth Gospel must have taken form secondly to define as precisely as possible the leading concepts with which the Evangelist is working and lastly to trace the course of the argument of the whole gospel to discover how the Evangelist s development of these concepts may be said to have determined the structure and arrangement of his book as we have it The reader is asked to work very hard the reward will be commensurate Here the Fourth Gospel most significant and most original of books is subjected to the tense examination of a living scholar second to none It is done with conscience with seriousness and intensity it inspires confidence and establishes the supreme importance of the theme to which it is devoted
