**African Images** Peter Rigby, 2020-05-12 This controversial book is an impassioned African response to the racial stereotyping of African people and people of African descent by prominent white scholars It highlights how the media contributes to the growth of racist ideas particularly in reporting current events in Africa and demonstrates how some of America's most revered intellectuals cloak racist ideologies in ostensibly egalitarian discourses The author seeks to rewrite the image of race in order to show the damage racism can cause serious scholarship

The SAGE Encyclopedia of African Cultural Heritage in North America Mwalimu J. Shujaa, Kenya J. Shujaa, 2015-07-13 The Encyclopedia of African Cultural Heritage in North America provides an accessible ready reference on the retention and continuity of African culture within the United States Our conceptual framework holds first that culture is a form of self knowledge and knowledge about self in the world as transmitted from one person to another Second that African people continuously create their own cultural history as they move through time and space Third that African descended people living outside of Africa are also contributors to and participate in the creation of African cultural history Entries focus on illuminating Africanisms cultural retentions traceable to an African origin and cultural continuities ongoing practices and processes through which African culture continues to be created and formed Thus the focus is more culturally specific and less concerned with the broader transatlantic demographic political and geographic issues that are the focus of similar recent reference works We also focus less on biographies of individuals and political and economic ties and more on processes and manifestations of African cultural heritage and continuity
