Bestiary is a modern but no less unsettling reimagining of the ancient version. It is an A to Z artist's guide to animals of the legendary world. Some like the griffin and yeti may be familiar to you. Others like the enigmatic questing beast and ferocious manticore may seem new and strange. Some may even haunt your dreams. Inside the bestiary you will find secrets of each animal's evolution, origins, habitat, anatomy, diet, and more. Fantastic illustrations created using pencil sketches and digital coloring. Four stage demonstrations taking you from concept and design to underpainting and finishing details. By drawing on the forms and features of more pedestrian animals you'll learn how to give shape to the bizarre creatures that roam the depths of your imagination, adding to the bestiary of the ages. **Bestiary of Monstruum** Steve Carter, Antoinette Rydyr, 2017
