   c. **Hunt Group:** Inbound sales calls were automatically directed to a predefined group of extensions within the VoIP network, limiting missed calls rates and allowing the client to handle high call volumes with ease.

   d. **Receptionist Client:** Consolidates need for multiple front-of-house receptionists into one telephony attendant console that has the capability to manage multiple locations.

   e. **Call Center:** Features designed to manage service methods and schedule reporting improves overall customer service.
