## **Chinese Execution:**

**The Next Frontier** David T Johnson, Franklin E Zimring, 2009-02-02 Today two thirds of the world's nations have abolished the death penalty either officially or in practice due mainly to the campaign to end state executions led by Western European nations Will this success spread to Asia where over 95 percent of executions now occur Do Asian values and traditions support capital punishment or will development and democratization end executions in the world's most rapidly developing region David T Johnson an expert on law and society in Asia and Franklin E Zimring a senior authority on capital punishment combine detailed case studies of the death penalty in Asian nations with cross national comparisons to identify the critical factors for the future of Asian death penalty policy The clear trend is away from reliance on state execution and many nations with death penalties in their criminal codes rarely use it Only the hard line authoritarian regimes of China Vietnam Singapore and North Korea execute with any frequency and when authoritarian states experience democratic reforms the rate of executions drops sharply as in Taiwan and South Korea Debunking the myth of Asian values Johnson and Zimring demonstrate that politics rather than culture or tradition is the major obstacle to the end of executions Carefully researched and full of valuable lessons The Next Frontier is the authoritative resource on the death penalty in Asia for scholars policymakers and advocates around the world

**Chinese Recorder and Missionary Journal** ,1893 Chinese Law in Imperial Eyes Li Chen, 2015-12-22 How did American schoolchildren French philosophers Russian Sinologists Dutch merchants and British lawyers imagine China and Chinese law What happened when agents of presumably dominant Western empires had to endure the humiliations and anxieties of maintaining a profitable but precarious relationship with China In Chinese Law in Imperial Eyes Li Chen provides a richly textured analysis of these related issues and their intersection with law culture and politics in the eighteenth and nineteenth centuries Using a wide array of sources Chen's study focuses on the power dynamics of Sino Western relations during the formative century before the First Opium War 1839-1842 He highlights the centrality of law to modern imperial ideology and politics and brings new insight to the origins of comparative Chinese law in the West the First Opium War and foreign extraterritoriality in China The shifting balance of economic and political power formed and transformed knowledge of China and Chinese law in different contact zones Chen argues that recovering the variegated and contradictory roles of Chinese law in Western modernization helps provincialize the subsequent Euro American discourse of global modernity Chen draws attention to important yet underanalyzed sites in which imperial sovereignty national identity cultural tradition or international law and order were defined and restructured His valuable case studies show how constructed differences between societies were hardened into cultural or racial boundaries and then politicized to rationalize international conflicts and hierarchy

**Book of the Royal Blue** ,1904 **The Hypothetical Mandarin : Sympathy, Modernity, and Chinese Pain** Eric Hayot Associate Professor of Comparative Literature and Director of the Program in Asian Studies Pennsylvania

State University, 2009-03-27 Why has the West for so long and in so many different ways expressed the idea that the Chinese have a special relationship to cruelty and to physical pain What can the history of that idea and its expressions teach us about the politics of the West's contemporary relation to China And what does it tell us about the philosophy of modernity The Hypothetical Mandarin is in some sense a history of the Western imagination It is also a history of the interactions between Enlightenment philosophy of globalization of human rights and of the idea of the modern Beginning with Bianchon and Rastignac's discussion of whether the former would if he could obtain a European fortune by killing a Chinese mandarin in Balzac's *Le Pere Goriot* 1835 the book traces a series of literary and historical examples in which Chinese life and European sympathy seem to hang in one another's balance Hayots wide ranging discussion draws on accounts of torture on medical case studies travelers tales photographs plasticized corpses polemical broadsides watercolors and on oil paintings His analyses show that the historical connection between sympathy and humanity and indeed between sympathy and reality has tended to refract with a remarkable frequency through the lens called China and why the story of the West's Chinese pain goes to the heart of the relation between language and the body and the social experience of the modern human being Written in an ebullient prose The Hypothetical Mandarin demonstrates how the network that intertwines China sympathy and modernity continues to shape the economic and human experience
