Creating

Spaniards

Culture and
National Identity
In Republican Spain

Creating Spaniards

G Orfield

Creating Spaniards:

Creating Spaniards Sandie Eleanor Holguin, 2002 *Creating Spaniards* is a cultural and intellectual history that explains the intersection of politics and culture and the formation of a national identity during Spain's Second Republic and Civil War. It counters recent scholarship claiming that leaders of the Second Republic had no programs for inventing traditions to encourage a Spanish national identity. Focusing on the Second Republic 1931-1936, Sandie Holguin illustrates how various intellectuals and politicians of the Republican Socialist coalition used theater, literature, and film to aid the construction of a unified Spanish culture and history. She uses memoirs, journals, newspapers, parliamentary debates, and archival sources in her examination of the impact that cultural reforms had on the transformation of one of Europe's oldest states. *Making*

Spaniards. A. Quiroga, 2007-07-12 The regime of Primo de Rivera in Spain was one of the major dictatorships of the interwar period. *Making Spaniards* examines how the military regime created nationalist doctrine, rituals, and symbols, and how these were transmitted throughout Spanish society in an attempt to make new authoritarian Spaniards and halt democratic reform.

Making Spaniards Alejandro Quiroga, 2007-08-15 *Making Spaniards* offers a student-friendly analysis of one of the most unexplored yet crucial periods of modern Spanish history: the dictatorship of Primo de Rivera (1923-1930). The book focuses on the official nationalist doctrine developed during the dictatorship and the process of nationalization and the masses undertaken by the state. It argues that the intellectuals of the primorriverista regime outlined the principles of an extreme right nationalism that eventually became the doctrinal bases of the Franco dictatorship following the Spanish Civil War.

Flamenco Nation Sandie Holguín, 2019-06-11 How did flamenco, a song and dance form associated with both a despised ethnic minority in Spain and a region frequently derided by Spaniards, become so inexorably tied to the country's culture? Sandie Holguin focuses on the history of the form and how reactions to the performances transformed from disgust to reverence over the course of two centuries. Holguin brings forth an important interplay between regional nationalists and image makers actively involved in building a tourist industry. Soon they realized flamenco performances could be turned into a folkloric attraction that could stimulate the economy. Tourists and Spaniards alike began to cultivate flamenco as a representation of the country's national identity. This study reveals not only how Spain designed and promoted its own symbol but also how this cultural form took on a life of its own. **Miscellanies of Georgia** Absalom Harris Chappell, 1874

Flamenco Nation Sandie Eleanor Holguin, 2019 *A History of England and the British Empire: 1689-1802* Arthur Donald Innes, 1925 Family Politics Paul Ginsborg, 2014-01-01 An exploration of the convulsive history of the 20th century's first five decades seen through the lens of families and family life. In this masterly twentieth-century history, Paul Ginsborg places the family at center stage, a novel perspective from which to examine key moments of revolution and dictatorship. His groundbreaking book spans 1900 to 1950 and encompasses five nation-states in the throes of dramatic transition: Russia in revolutionary passage from Empire to Soviet Union; Turkey in transition from Ottoman Empire to modern Republic; Italy from

liberalism to fascism Spain during the Second Republic and Civil War and Germany from the failure of the Weimar Republic to the National Socialist state Ginsborg explores the effects of political upheaval and radical social policies on family life and in turn the impact of families on revolutionary change itself Families he shows do not simply experience the effects of political power but are themselves actors in the historical process The author brings human and personal elements to the fore with biographical details and individual family histories along with a fascinating selection of family photographs and portraits From WWI an indelible backdrop and imprinting force on the first half of the twentieth century to post war dictatorial power and family engineering initiatives to the conclusion of WWII this book shines new light on the profound relations among revolution dictatorship and family

The Making of the American Republic Archer Butler Hulbert,1923 **Basque Nationalism and the Spanish State**

André Lecours,2007-07-13 An examination of Basque nationalism from a historical perspective Basque nationalism has been extensively examined from the perspectives of Basque culture and internal conditions in the Basque Country but Andr Lecours is among the first to demonstrate how Basque nationalism was shaped by the many forms and historical phases of the Spanish state His discussion employs one of the most debated approaches in the social sciences historical institutionalism and it includes an up to date examination of the circumstances for and consequences of recent events such as ETA s announcement in 2006 of a permanent cease fire Lecours also analyzes other aspects of Basque nationalism including the international relations of the Basque Autonomous Government as well as the responses of the contemporary Spanish state and how it deploys its own brand of nationalism Finally the book offers a comparative discussion of Basque Catalan Scottish Flemish and Quebecois nationalist movements suggesting that nationalism in the Basque Country despite the historical presence of violence is in many ways similar to nationalism in other industrialized democracies Basque Nationalism and the Spanish State is an original and provocative discussion that is essential reading for anyone interested in the Basques or in the development of modern nationalist movements
