

Autumn

Fall breezes gently blowing
Dark skies overhead
Bright colored leaves decorating
the landscape
Red, orange and yellow
Rustling in the wind to their own
melody
Offering their scent as perfume
Others hugging the branches ever
so tightly
Chimes softly ringing
Playing their own muted tune

Autumn Grasses Poems:

Autumn Grasses Margaret Gibson, 2003-03-01 The inspiration for most of the poems in *Autumn Grasses* was a daily engagement calendar that features the art of Japan screens hanging scrolls painted silks wood block prints In the dynamic stillness of this new visual field Margaret Gibson steps away from the merely personal No one's home to write poems that dip and swoop with the unguarded ease of birds in flight verse as fluid and seamless as the movement of day to night season to season Trusting the power of unknowing of imagination these poems are delicate reminders of English based forms filled with the spirit of Zen *Autumn Grasses* is both elegant and spontaneous vivid and wise Gibson's rapt engagement with Japanese art has produced swift insight detail that dazzles a voice that can range from the serene to the earthy always with a commitment to seeing each thing as it is entering each moment with presence and zest

Autumn Grasses and Water Santorī Bijutsukan, 1983

The Poetry of He Zhu (1052-1125) Stuart Howard Sargent, 2007 The Northern Song poet He Zhu is best known for his lyrics ci but also produced shi poetry of subtlety wit and feeling This study examines the latter as a response to the options available to a late eleventh century writer in the pentametrical and heptametrical forms of Ancient Verse Regulated Verse and Quatrains Numerous comparisons are made with Su Shi Huang Tingjian Du Fu and other important writers In a major advance over previous methodologies the author uses a clear system of metrical notation to show how sound patterns reveal the poet's artistic and emotional intentions This innovation and the author's other meticulous explorations of He Zhu's artistry allow us to experience Chinese poetry as never before From the reader's report not just an excellent study of an individual poet but also a model of reading the language of classical Chinese poetry opens up a world of interpretive territory heretofore seldom explored

Japan and the Culture of the Four Seasons Haruo Shirane, 2012-03-20 Elegant representations of nature and the four seasons populate a wide range of Japanese genres and media from poetry and screen painting to tea ceremonies flower arrangements and annual observances In *Japan and the Culture of the Four Seasons* Haruo Shirane shows how when and why this practice developed and explicates the richly encoded social religious and political meanings of this imagery Refuting the belief that this tradition reflects Japan's agrarian origins and supposedly mild climate Shirane traces the establishment of seasonal topics to the poetry composed by the urban nobility in the eighth century After becoming highly codified and influencing visual arts in the tenth and eleventh centuries the seasonal topics and their cultural associations evolved and spread to other genres eventually settling in the popular culture of the early modern period Contrasted with the

elegant images of nature derived from court poetry was the agrarian view of nature based on rural life The two landscapes began to intersect in the medieval period creating a complex layered web of competing associations Shirane discusses a wide array of representations of nature and the four seasons in many genres originating in both the urban and rural perspective textual poetry chronicles tales cultivated gardens flower arrangement material kimonos screens performative noh festivals and gastronomic tea ceremony food rituals He reveals how this kind of secondary nature which flourished in Japan s urban architecture and gardens fostered and idealized a sense of harmony with the natural world just at the moment it was disappearing Illuminating the deeper meaning behind Japanese aesthetics and artifacts Shirane clarifies the use of natural images and seasonal topics and the changes in their cultural associations and function across history genre and community over more than a millennium In this fascinating book the four seasons are revealed to be as much a cultural construction as a reflection of the physical world
