conception coupled with the necessity of allowing adequate time for each volume to be prepared with the necessary care means that there is no set time table for the publication of the whole series Each volume will be a self contained work complete in itself The order in which the handbooks are published does not imply any rank ordering but is determined by the way in which the series is organized the editor of the whole series enlist a competent editor for each individual volume Once the principal editor for a volume has been found he or she then has a completely free hand in the choice of co editors and contributors The editors plan each volume independently of the others being governed only by general formal principles The series editor only intervene where questions of delineation between individual volumes are concerned It is felt that this modus operandi is best suited to achieving the objectives of the series namely to give a competent account of the present state of knowledge and of the perception of the problems in the area covered by each volume **The Bi-literal Cypher of Sir Francis Bacon** Elizabeth Wells Gallup,1975 Bookkeeping and Business Knowledge, First- [second] Year Course Jacob Hugh Jackson,Thomas Henry Sanders,Alexander Hugh Sproul,1923 The Encyclopaedia Britannica Thomas Spencer Baynes,1878 **Descriptive Catalogue and Price List of Pumps, Engines, Rams** Goulds Manufacturing Co,1885
