Teaching Adults Rogers, Alan, Horrocks, Naomi, 2010-06-01 **Teaching Adults** **Authentic Chinese Educational Thought** Ruth Hayhoe, Jun Li, Julia Pan, 2022-07-25 This book introduces four influential Chinese educators of the later 20th century whose writings had enormous influence on many dimensions of the educational reforms which underly China's remarkable transformation into a global superpower. None of them published in English and only Li Bingde, a leader in educational experimentation, had studied abroad. Huang Ji at Beijing Normal University was an educational philosopher who interpreted Chinese classical texts as well as arts such as calligraphy and painting in ways that brought new life to Chinese pedagogy. Lu Jie at Nanjing Normal University and Wang Fengxian at Northeast Normal University were leaders in developing a whole new approach to moral education that highlighted subjectivity and self-awakening as China became a socialist market economy. *Adult Education* Joseph Kinmont Hart, 1927 **Pornography and Sexual Deviance** Michael J. Goldstein, Harold S. Kant, John J. Hartman, 2022-03-25 Does pornography represent a clear and present danger to our society? This issue is being debated in the courts with increasing frequency and is intimately tied to the broader issue of censorship and the voiding of first amendment protection which it implies. This volume deals both with the psychological effects of exposure to erotica and with the legal implications of censorship of pornography. This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1973. Advances in Medical Education A.J.J.A. Scherpbier, Cees P.M. van der Vleuten, J.J. Rethans, A.F.W. van der Steeg, 2012-12-06 About 550 registrants from 51 different countries attended the Seventh Ottawa Conference on Medical Education and Assessment in Maastricht. We received 525 abstracts for the conference, divided into thematic poster sessions and platform presentations. Organising the conference was an honour and we tried to meet the high standards of a friendly and relaxed atmosphere which has characterized previous Ottawa conferences. During and after the conference, about 250 papers were submitted for publication in the conference proceedings, leaving us little time for a post-conference depression. Despite the large number of papers, the editors have attempted to review and edit the papers as carefully as possible. Occasionally, however, correspondence exceeded reasonable deadlines, preventing careful editing of a small number of the papers. Although we felt that our editorial task was not quite finished, we nevertheless decided to include these papers. We thank the many authors for their enthusiastic and prompt response to occasionally tedious editorial suggestions and requests. We are sure that this collective effort has resulted in a book that will make an important contribution to the field of medical education. The editors want to thank Jocelyn Flippo Berger whose expertise with desk-top publishing and perseverance was a great help.
