Cork Memory Step:

The Artist and Academia Helen Phelan, Graham F. Welch, 2021-03-29 *The Artist and Academia* explores the relationship between artistic and academic ways of knowing. Historically these have often been presented as opposites: the former characterized as passionate and intuitive and the latter portrayed as systematic and rigorous. Recent scholarship presents a more complex picture. Artistic knowledge demands high levels of skill and rigor while academic research requires creativity and innovative thinking. This edited collection brings together leading artists and scholars as well as artist scholars to offer a variety of philosophical, educational, experiential, reflexive and imaginative perspectives on the artist and academia. The contributions include in-depth scholarly discussions on the nature of knowledge and creativity as well as personal artistic statements from musicians, dancers, actors and writers. Additionally it explores both the mediational and subversive spaces created by the meeting of artistic and academic traditions. While the book addresses global themes by global writers its core case study is an educational experiment called the Irish World Academy of Music and Dance at the University of Limerick in Ireland. Established in 1994 it set out to reconfigure the place of the artist in the context of contemporary higher education. The material is clustered into three parts. Part One and Part Two explore the artist as mediator, educator and subversive in academia. Grounded in close to practice research Part Three concludes the volume with a set of case studies from the Irish World Academy. Artistic and academic knowledge come together in this unique set of pieces to explore the development of more inclusive and imaginative pedagogical values.

A Reflection Through Fashion Upcycling Rachael Cassar, 2025-11-19 *A Reflection Through Fashion Upcycling: The Archive in Pieces* stands as a seminal work at the intersection of fashion studies, material culture and sustainability discourse. Authored by a distinguished award-winning practitioner, this groundbreaking text offers a richly detailed examination of fashion upcycling through a historical and material culture lens. At its core, the book transcends the traditional confines of sustainable fashion discourse by delving into the profound complexities of reuse and material culture. Drawing from a curated archive of garments dating from the late 19th to early 20th centuries, it traces the symbolic and tactile journey of deconstructing clothing and repurposing through contemporary design. The book's originality lies in its synthesis of academic research and studio practice, positioning fashion upcycling as an intellectual and ethical act. By re-contextualising garments through experimental design, it offers fresh insight into the potential of upcycling as a means of historical preservation, critical inquiry and cultural storytelling. The author combines rigorous scholarship, studio-based experimentation and intimate engagement with historical artefacts to uncover layered narratives embedded within textiles. By challenging narrow interpretations of sustainable fashion, the work presents upcycling as a nuanced dialogue between past and present, ethics and aesthetics, and materiality and meaning. Through its interdisciplinary approach and meticulous scholarship, it charts a path towards a more considered, sustainable and conscientious future for the fashion industry. Bridging design, history, practice and ecological awareness, *A Reflection Through*
