## Action And Performance:

Performance Action Paula Serafini, 2018-03-20 Performance Action looks to advance the understanding of how art activism works in practice by unpacking the relationship between the processes and politics that lie at its heart Focusing on the UK but situating its analysis in a global context of art activism the book presents a range of different cases of performance based art activism including the anti oil sponsorship performances of groups like Shell Out Sounds and BP or not BP the radical pedagogy project Shake the psychogeographic practice of Loiterers Resistance Movement and the queer performances of the artist network Left Front Art Based on participatory ethnographic research Performance Action brings together a wealth of first hand accounts and interviews followed by in depth analysis of the processes and politics of art activist practice The book is unique in that it adopts an interdisciplinary approach that borrows concepts and theories from the fields of art history aesthetics anthropology sociology and performance studies and proposes a new framework for a better understanding of how art activism works focusing on processes The book argues that art activism is defined by its dual nature as aesthetic political practice and that this duality and the way it is manifested in different processes from the building of a shared collective identity to the politics of participation is key towards fully understanding what sets apart art activism from other forms of artistic and political practice The book is aimed at both specialist and non specialist audiences offering an accessible and engaging way into new theoretical contributions in the field of art activism as well as on wider subjects such as participation collective identity prefiguration and institutional critique

Action Cinema Since 2000 Chris Holmlund, Lisa Purse, Yvonne Tasker, 2024-05-16 Action Cinema Since 2000 addresses an increasingly lively and evolving field of scholarship probing the definition and testing the potential of action cinema to reframe the mode for the 21st century Contributors examine a broad range of content from blockbusters to smaller independent films originating from China Korea India France the USA and Mexico Ranging from JSA Joint Security Area Gondonggeonygbi guyeok 2000 to Polite Society 2023 they consider the changing modes of action cinema with streaming assuming global importance and an ever increasing number of generic blends They consider under explored areas of action film particularly how race ethnicity gender and age figure in narratives and through image and soundtracks Overall the book demonstrates how 21st century action cinema engages with and reflects geopolitical creative and industrial developments Contributors argue that it continues to offer fantasies of empowerment and mobility that say much about how power is understood in diverse contexts today

*Theology as Performance* Philip Stoltzfus, 2006-06-05 Theology as Performance breaks new ground in the growing conversation between modern theology and philosophical aesthetics Stoltzfus proposes that significant moments in the Western development of the concept of God in particular as represented in the figures of Friedrich Schleiermacher Karl Barth and Ludwig Wittgenstein have been deeply influenced by concepts and approaches borrowed from the discipline

of musical aesthetics Each thinker develops fundamentally different ways of writing about God that have in significant respects been derived from each one's reading and writing about music The aesthetic implications of Schleiermacher's so-called subjectivist turn Barth's objectivist reaction and Wittgenstein's language game pragmatism can thus be fully understood only by attending to the musical culture and distinctly musicological discourses that gave rise to them Stoltzfus constructs two trajectories of thought with which to trace theological reflection upon music throughout the pre-modern period the traditions of Orpheus and Pythagoras Schleiermacher's aesthetic approach then becomes a modern representative of the Orpheus trajectory and Barth's approach a representative of the Pythagoras trajectory Stoltzfus interprets Wittgenstein as putting forward a radical critique of these trajectories and pointing toward a third performative theological aesthetic method Theology as Performance offers a provocative rethinking of the aesthetic roots of modern theology
