Interfaces with English Aspect Debra Ziegeler, 2006-11-22 The field of verbal aspect has been a focus for the derivation of a multiplicity of theoretical approaches ranging over decades of linguistic research From the point of view of recent studies though there has been relatively little emphasis on the nature of the interaction of aspect with other categories and the ways in which our knowledge of aspect acts as a primary semantic contributor to the creation of other basic verbal parameters such as tense and modality This book aims to cross some of the categorial borders using a collection of studies on the interfaces of English aspect with other grammatical domains The studies in the book have been assembled in order to answer two central issues surrounding the nature of English aspect the possibility of the historical co existence of a perfective and imperfective grammatical distinction in English and the derivation of modality as an inference arising out of specific conflicts and combinations of lexical and grammatical aspect In answering these questions a data driven rather than a theory driven approach is favoured and the general principles of Gricean pragmatics and grammaticalisation are applied to a wide range of empirical sources to propose alternative explanations to some long established problems of English historical linguistics and semantics

Aspects of Social Evolution John Lionel Tayler, 1904 Thomas F. Torrance's Theology of the Ascension Stavan Narendra John, 2025-05-29 The ascension is a crucial doctrine integrally related to the incarnation When it is underemphasized it results in an impoverishment of our theology of Christ the church human beings and eschatology T F Torrance s theology offers a compelling vision and holistic doctrine of the ascension that notwithstanding its flaws deserves a careful and detailed

examination Torrance develops a holistic account of the ascension by considering the ontology spatiality and present ministry of the ascended Jesus What results is a theological construction that affirms the ascended body of Christ and understands the Lord to be currently serving as our human representative in a ministry of priestly intercession prophetic declaration and ascended kingship Torrance is able to do this without succumbing to literalism space travel demythologization metaphorical reading or Pelagianism human effort based sanctification and glorification This book interprets and then develops Torrance s theology of the ascension in critical dialogue with contemporary theological interlocutors *Bengal, Past & Present* ,1907
