University of Copenhagen and the editor of *Contemporary Painting in Context* **Aesthetic Conflict and Contradiction**
 Samuel Cuff Snow, 2023-10-04 The central claim of this comparative study of Kant and Kierkegaard is that the aesthetic experience of the sublime is both autonomous and formative for extra aesthetic ends Aesthetic autonomy is thus inseparable from aesthetic heteronomy In Part I through an examination of Kant's Critique of Judgement and his essays on the French Revolution the Kantian sublime is shown to conflict with our existing cognitive moral and political frames of meaning at the same time that the engagement of the aesthetic judge Chapter 1 or the enthusiastic spectator Chapter 2 with this conflict furthers our pursuit of cognitive moral and political ends The Kantian sublime is built on the autonomy of aesthetic judgement which nevertheless has non aesthetic value Part II argues that certain aesthetic and ethical religious figures in Kierkegaard's work can be shown to be transfigurations of the Kantian sublime despite the absence of the term Antigone and the silhouettes from *Either/Or* embody what I coin the tragic sublime and sublime grief The God man in Practice in Christianity is interpreted as a sublime image of contradiction The figures are submitted to aesthetic representation while their contradictory interior lives are unrepresentable The Kierkegaardian sublime is built on a radical critique of aesthetic autonomy whose failure serves the end of ethico religious self formation *Design's Dilemma between Art and Problem-Solving* Philipp Zitzlsperger, 2025-12-15 The design dilemma is based on the historic separation of design and art since the late Middle Ages It describes the transformation of design from an art discipline to a problem solving discipline On the one hand this great divergence is accompanied by myths that construct opposites of free art and unfree design of aura and loss of aura or of distance and touch On the other hand the avant gardes have often invoked the unity of art and design which museums or marketing also take up again today In order to better understand design's wandering between art and non art its 600 year history of ideas is now traced for the first time in the fields of art and industrial history as well as the philosophy of pragmatism since about 1900 Special attention is paid to the original ideas and their overformation by technicism capitalism functionalism or Darwinism They create the design dilemma that shapes the attitude of its actors
