Horoscope Matching Dr. S.C. Kursija, This book deals with the fundamentals of Horoscope matching Today Horoscope matching has become the indispensable part of Hindu marriage But it has not been mentioned in any old Jataka scripture of Astrology However it has been described in the Muhurta scriptures of the same In Ramayan marriage of Rama Bharata Lakshmana and Shatrughna has been described elaborately But in this great epic also Horoscope matching has not been mentioned Likewise in Mahabharata too it has not been cited Therefore it can be said that Horoscope matching in Astrology

Modern Astrology ,1928 **Resolving the Controversies in Astrology and Vedic Astronomy** Dr Sriharsha Indrasena FRCS,2020-07-21 The controversies between astrology and Vedic astronomy arise historically due to a mixture of astronomical miscalculations differing calendrical systems and philosophical interpretations Classical Vedic texts often describe celestial motions planetary periods and auspicious timings muhurta that can appear inconsistent with modern tropical astronomy Key points of debate include 1 Tropical vs Sidereal Zodiac Astrology in the Western tradition typically uses the tropical zodiac tied to the seasonal equinoxes Vedic Jyotish astrology uses the sidereal zodiac which references fixed stars The difference approximately 24 currently is called ayanamsha Controversies arise over which ayanamsha system most accurately models celestial positions 2 Rahu Ketu and Planetary Nodes Vedic texts assign significant predictive power to lunar nodes Rahu ascending and Ketu descending Controversy stems from reconciling mythological descriptions with modern orbital mechanics Vedic astronomy treats them as calculable points rather than planets 3 Calendrical Systems and Yuga Cycles References to Chaturyuga Mahayuga Saptarshis calendar Salivahana Saka Vikram Samvat and Kali Yuga yield disputes about historical chronology Differences in intercalary extra months or lost months have caused inconsistencies in dating historical events 4 Graha Yuddha and Charakaraka Planetary conjunctions graha yuddha documented in Vedic texts often conflict with modern ephemerides Charakaraka planets specific key planets for a person can differ from current positional astronomy causing discrepancies in predictive astrology 5 Historical Figures and Chronology Dating figures like Varahamihira Aryabhata Kalidasa and King Vikramaditya is complicated by differing Vedic era calendars versus modern astronomical calculations Approach to Resolution Dr Sriharsha Indrasena in his book Resolving the Controversies in Astrology and Vedic Astronomy proposes an integrative and analytical approach a Empirical Correlation Compare historical astronomical events eclipses planetary positions recorded in Vedic texts with modern calculations to validate reliability b Philosophical Reconciliation Recognize that astrology is partially symbolic some controversies stem from literal interpretations of mythological concepts c Standardizing Ayanamsha Employ a scientifically consistent ayanamsha value agreed upon through astronomical modeling to reconcile tropical and sidereal differences d Critical Historical Analysis Crosscheck ancient texts with archaeological and epigraphic evidence to resolve chronological disputes e g dating Mahayuga cycles or Saptarshis movements e Integration with Modern Science Translate Vedic descriptions of celestial mechanics into terms compatible with heliocentric orbital data without undermining the symbolic or ritualistic significance Conclusion Resolving controversies in astrology and Vedic astronomy requires a multidisciplinary approach i Combine astronomy archaeology textual criticism and philosophy ii Treat astrological constructs symbolically while validating astronomical claims empirically iii Harmonize calendars yugas and zodiac frameworks with robust astronomical models The work of Dr
