The Americas Kimberly J. Morse, 2022-08-23 This two-volume encyclopedia profiles the contemporary culture and society of every country in the Americas from Canada and the United States to the islands of the Caribbean and the many countries of Latin America. From delicacies to dances, this encyclopedia introduces readers to cultures and customs of all of the countries of the Americas, explaining what makes each country unique while also demonstrating what ties the cultures and peoples together. The Americas profiles the 40 nations and territories that make up North America, Central America, the Caribbean, and South America, including British, U.S., Dutch, and French territories. Each country profile takes an in-depth look at such contemporary topics as religion, lifestyle, and leisure, cuisine, gender roles, dress, festivals, music, visual arts, and architecture, among many others, while also providing contextual information on history, politics, and economics. Readers will be able to draw cross-cultural comparisons such as between gender roles in Mexico and those in Brazil. Coverage on every country in the region provides readers with a useful compendium of cultural information, ideal for anyone interested in geography, social studies, global studies, and anthropology.

Continuing Perspectives on the Black Diaspora Aubrey W. Bonnett, Calvin B. Holder, 2009-07-16 *Continuing Perspectives on the Black Diaspora* is a response to a 1990 publication that studied the persistence and resilience of black African diasporic populations in the Caribbean, Latin America, North America, and the United Kingdom. In that book, the authors used the themes of persistence and resilience to interrogate the social processes and the coping repertoire of these diasporic populations. This volume investigates the often-overlooked African presence in Asia. Researchers sought to determine how many of these diasporic populations have fared in the context of political independence, globalization, economic marginalization, and the presence of ethnic conflict and institutional racism, even with positive class formations and declining significance of race in other geographical areas. Prescriptions for the continued viability of these diasporic populations are provided. India and China are undergoing a global renaissance, emerging as potentially significant economic, political, and cultural actors on the world scene. Meanwhile, ancestral Africa is still socially, politically, and economically fragmented, thereby causing a new migratory push to North America and Europe.
