College Algebra with Modeling and Visualization Gary K. Rockswold,2014 By connecting applications modeling and visualization Gary Rockswold motivates students to learn mathematics in the context of their experiences In order to both learn and retain the material students must see a connection between the concepts and their real lives In this new edition connections are taken to a new level with See the Concept features where students make important connections through detailed visualizations that deepen understanding Rockswold is also known for presenting the concept of a function as a unifying theme with an emphasis on the rule of four verbal graphical numerical and symbolic representations A flexible approach allows instructors to strike their own balance of skills rule of four applications modeling and technology 0321900456 9780321900456 Algebra and Trigonometry with Modeling Visualization Plus MyMathLab with Pearson eText Access Card Package Package consists of 0321431308 9780321431301 MyMathLab MyStatLab Glue in Access Card 0321654064 9780321654069 MyMathLab Inside Star Sticker 0321826124 9780321826121 Algebra and Trigonometry with Modeling Visualization **College Algebra and Trigonometry Through Modeling and Visualization** John Hornsby,Gary K. Rockswold,Margaret L. Lial,1999-08-09 This book intended for a graphing required college algebra and trigonometry or precalculus course offers an innovative approach by demonstrating the importance of mathematics to students and presenting the material in an accessible manner The text consistently integrates mathematical concepts with real applications in order to enhance student intuition and understanding Symbolic algebraic graphical numerical and verbal skills are continually reinforced throughout When introducing mathematical ideas the text moves from the concrete to the abstract rather than the reverse It is the authors philosophy that learning is increased when students can relate a concept to something in their lives Hence mathematical concepts are often introduced through applications that help make the mathematics real to students Students see the importance of a topic from a practical and intuitive point of view with models and applications playing a central part in the learning process Algebra and Trigonometry with Modeling and Visualization Plus MyMathLab with Pearson EText -- Title-Specific Access Card Package Gary K. For courses in Algebra and Trigonometry, this package includes MyLab Math. Showing why math matters, Gary Rockswold doesn't just mention real-world examples; he teaches mathematical concepts through those applications. For example, if we look at Facebook usage over time, what might that tell us about linear growth and predictions? In this way, students learn the concepts in the context of the world they know, which leads to better understanding and retention. From there, the author shows a connection between application modeling and visualization. Rockswold is known for presenting the concept of a function as a unifying theme, with an emphasis on the rule of four: verbal, graphical, numerical, and symbolic representations. The 6th Edition emphasizes conceptual understanding with new in-chapter features and assignment options, while at the same time providing tools to empower instructors to make their classroom more active through collaboration and group work.

Personalize learning with MyLab Math. MyLab™ Math is an online homework tutorial and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them absorb course material and understand difficult concepts. The 6th Edition continues to expand the comprehensive auto-graded exercise options. The pre-existing exercises were carefully reviewed, vetted, and improved using aggregated student usage and performance data over time. In addition, MyLab Math includes new options to support conceptual learning, visualization, and student preparedness.
