Organizational Knowledge Dynamics: Managing Knowledge Creation, Acquisition, Sharing, and Transformation Bratianu, Constantin, 2015-03-31 Promoting organizational knowledge is an important consideration for any business looking toward the future Understanding the dynamics of knowledge intensive organizations is a crucial first step in establishing a strong knowledge base for any organization Organizational Knowledge Dynamics Managing Knowledge Creation Acquisition Sharing and Transformation introduces the idea that organizational knowledge is composed of three knowledge fields cognitive knowledge emotional knowledge and spiritual knowledge This book is useful for graduate students researchers and practitioners in knowledge management intellectual capital human resources management change management and strategic management The Art of Co-Creation Bryan R. Rill, Matti M. Hämmäläinen, 2018-08-20 This book illustrates how to design and implement co creation a powerful form of collective creativity that harnesses the potential of teams and can generate breakthrough insights Skilled leaders and facilitators can utilize this approach to unleash the creative potential of their organizations Drawing from years of applied research the authors bring together insights from the fields of design and organizational development into an evocative and pragmatic how to guidebook Taking a human centred rather than process oriented perspective the book argues that experience design separates true co creation from other forms of collective efforts and design thinking Collective moments of creative insight emerge from the space between an experience of flow and synchronicity from which new ideas spring forth How to create and hold this space is the secret to the art of co creation Collective breakthroughs require stakeholders to undergo a journey from the world of their existing expertise into spaces of new potential It requires leaders moving from a position of dominating space to holding the space for others and developing core capacities such as empathy and awareness so that teams can engage each other co creatively This book uncovers the secrets of this journey enabling process designers to develop more effective programs *Kindred Creation* Aida Mariam Davis, 2024-12-03 A vital path home Employing African epistemologies and an embodied African beingness this book embraces the revelation and miracle of Blackness Creating a world worthy of our children requires recalling the dignity and distinction of the African way of life This book is not written for settler consumption Kindred Creation is a call and response to dream and design better worlds rooted in African lifeways a path to Black freedom a love letter to Black futures and a blueprint to intergenerational Black joy and dignity all and always on Black terms Author organizer and designer Aida Mariam Davis explores the historical and ongoing impacts of settler colonialism making explicit the ways that extraction oppression and enslavement serve the goals of empire not least by severing ancestral connections and disrupting profound and ancient relationships to self nature and community Structured in three parts Remember Refuse and Reclaim Kindred Creation is a philosophical guidebook and a vital invitation to power and reconnection Davis employs parable poetry theory memory narrative and prophecy to help readers Remember By unforgetting the unending and cascading violence of settler

colonialism and other forms of domination and exploring the ways that African land language lifestyle and labor are stolen distorted and repackaged for colonial consumption to extract capital and sever ties to ancestral knowledge lifeways and dignity Refuse By rejecting and interrupting death making institutions and relationships and choosing kinship and self determination in the face of settler colonial violence Reclaim By revealing that freedom is within us and within reach Davis shares how the reader can birth new worlds and relationships and offers strategies for reclaiming land language lifestyle and labor The colonial violence and dispossession of African land language and labor is inflicted intentionally and by design Reclaiming African lifeways and remembering what was forcibly forgotten must be by creation a re remembering of our interconnectedness and kinship
