

Alien Planet

Daniel Cohnitz, Jussi Haukioja

Alien Planet:

Life on an Alien Planet: Pathological Demand Avoidance Katie Stott, 2019-09-03 Katie Stott's vivid and honest account provides a compelling insight into Pathological Demand Avoidance (PDA). The book follows the journey of her son Fraser and the sudden change that occurred in him when starting primary school aged just four. Katie recounts the difficulty both she and the school staff had understanding Fraser's extreme behaviours until he was diagnosed with Asperger syndrome and PDA. Full of useful advice and observations, Katie provides a detailed account of the PDA-specific behaviours in Fraser and how she learnt to lessen the impact of these by focusing on the cause (anxiety and a need for control) rather than the effect. Katie explains with clarity how Fraser's sensory issues also contributed to his every-day challenges at school as he became increasingly isolated from his classmates and faced risk of expulsion when the school became unable to cope. The book goes on to explore Katie's fight to gain recognition of PDA in school and, despite significant obstacles, the way she eventually managed to secure an Education Health and Care Plan (EHCP) and a specialist school so that Fraser could learn, make friends and thrive once again. Packed with advice, it also provides an invaluable reference on how to ensure PDA children get the support they need and the options available to special educational needs (SEN) children who are struggling in the mainstream school environment. A detailed resource for parents and families of children with PDA, along with teachers, SENCOs and those who work alongside children in the education system.

Foundations for Metasemantics Daniel Cohnitz, Jussi Haukioja, 2025-07-02 Metasemantics studies the foundations of meaning, asking what makes it the case that certain words have the meanings that they do. But what makes metasemantic theories true? This question has been all but ignored in philosophy of language. In this book, Cohnitz and Haukioja address this issue and argue that just as in metasemantics, both internalist and externalist answers are available for this foundational question. The authors introduce and defend meta-internalism, arguing that the foundations of reference and meaning are anchored in the individual dispositions and psychological states of language users, offering an alternative to meta-externalist views that would appeal to broader community-based or otherwise external factors. Meta-internalism is moreover compatible with semantic externalism as usually understood and provides an explanation of why externalism is true. Through a critical examination of prominent theories and thought experiments, the book explores fundamental issues like reference failure, conceptual engineering, and the metaphysical implications of reference, as well as the methodology of theories of reference. With its focus on the foundations of metasemantics, the book provides a fresh and empirically informed perspective on one of the core questions in the philosophy of language. *Foundations for Metasemantics* is essential reading for philosophers, scholars, and students seeking to understand the underlying principles that support our theories of meaning and reference.

THE SELF-INTRODUCTION OF ZHANG XIANG QIAN Zhang Xiang Qian, 2025-04-04 Zhang Xiang Qian's *Self Introduction* tells of a Chinese farmer taken to an alien planet in 1985. It details his efforts to promote field scanning tech and insights into
